WHO ARE WE?

We're an independent food distributor with a team of around 20 people across Victoria and Western Australia — made up of friends, family and some great people we've picked up along the way.

Food has been part of our families for a long time. We've grown up around the industry, built plenty of relationships and learned a lot about what makes a good supplier.

When we started Next Gen Foods, we wanted to build the kind of business we'd want to deal with ourselves.

For us, that means finding great products, doing what we say we'll do, looking after our customers and being easy to work with. Nothing too complicated.

We've grown a lot, but the way we do business hasn't changed. You'll get to know our team, and we'll get to know your business. We like it that way.
