

Turnkey Projects: Design , Build , Equipment and Operational Maintenance

More info: rkpro.eu

We take care of the entire Project: Design , Build , Equipment and Operational Maintenance.

A large enterprise, listed on the Shanghai and Hong Kong stock exchanges. It is a major conglomerate that operates four core businesses:

- Engineering and Construction.**
- Equipment manufacturing.**
- Resource development.**
- Property development.**

It is a large metallurgical engineering contractor and provider of technological upgrading and reconstruction services in metallurgical engineering.

It is a renowned EPC (Engineering, Procurement, and Construction) contractor both domestically and internationally. With approximately:

- 70 subsidiaries boasting national competitiveness and a global presence.**
- The company employs 120,000 individuals, including 56,000 technical and management personnel.**

We have four Special Grade Certificates including:

- Construction.**
- Municipal.**
- Metallurgy.**
- Highway Construction.**

(ISO9001:2015+GB/T50430-2017、 ISO14001:2015, ISO45001:2018).

- China engineering construction "AAA" grade rating credit Enterprise.**
- 77 national construction award (including 30 Luban awards, 44 national excellent awards, and 3 zhan Tianyou awards)**
- Top service provider of the whole industry chain**

Extensive experience in comprehensive hospital construction worldwide.

Core Strength

Speed

Quality

Services

Speed

Nanchong urban main road renovation and upgrading project: EPC ***5months*** for (2017.8.1-2018.1.5) the underground reconstruction and upgrading of ***15 kilometers*** of urban main road, the construction of ***1.02 million square meters*** of landscape along the road and ***20 kilometers*** of urban light project

Sichuan University of Light and Chemical Technology (Yibin Campus):EPC ***7months*** (2018.1.20-2018.8.20) for ***390,000 m²*** University campus

Speed

Chengdu West Financial Innovation Center

Phase 1: EPC ***6months***(2021.1.20-2021.7.19) for ***110,000 m²***

Yangzhou World Horticultural Expo World

Expo Garden: EPC, ***11months***(2020.4.9-2021.3.15) for ***430,000 m²***

Speed

TISCO silicon steel CA4 unit project:
73days(2021.5.10-2021.7.22)for national first extremely thin unoriented silicon steel production line

The Tesla Gigafactory in Shanghai: EPC , *4months*
(2020.5.12-2020.9.15) for ***50,000 m²*** Three-storey steel structure of the world's most advanced automotive factory

Chengdu Zizhou Avenue Ocean crossing bridge:
7months(2020.3.1-2020.10.29) for all

Industrial Park**

Hospital project Reference

Hospital projects

Project Name	project description	Project scale (m ²)	Staus
Cuiping District People's Hospital	including a total land area of 28,571 square meters and a construction area of 65,687 square meters. The main content is the 15-storey ward building, the 11-storey scientific research building, the internal and external decoration of the outpatient medical technology building and equipment installation, etc.	65,687	completed since 31-10-2017
sinPengzhou 2nd People's Hospital expansion project	The expanded area is 57,000 m ²	57,000	completed since 30-4-2021
Qionglai Second People's Hospital Survey-design-construction general contract	The construction area of the new business room is about 45,000 square meters, and the underground parking lot is 20,000 square meters and auxiliary facilities, with 400 beds	45,000	in process
Chengdu Qingbaijiang District Hospital of Traditional Chinese Medicine relocation project supporting project Design-construction general contract	Including interior decoration engineering, medical special engineering, greening engineering, medical complex building and low voltage and low voltage supporting engineering, external power supply construction, etc	42,770	in process
Chengdu Seventh People's Hospital Tianfu District Project Phase III project	This project is 13 floors above the ground of the medical complex building, 2 floors underground (the negative one floor has partial interlayer), guard room, garbage room, liquid oxygen station, sewage treatment room, etc., with a total construction area of about 59,479.46 square meters	59,479	in process

Hospital projects

Project Name	project description	Project scale (m ²)	Staus
Chengdu Jinniu District Hospital of Traditional Chinese Medicine engineering design-construction general contract	A new third-level TCM hospital with 700 beds (including 20 negative pressure beds) will be built. The planned construction land area of the project is 24,587.76 square meters, and the planned total construction area is 112,481.03 square meters.	112,481	in process
Chenghua District seven hospital new site construction project	This project is 13 floors above the ground of the medical complex building, 2 floors underground (the negative one floor has partial interlayer), guard room, garbage room, liquid oxygen station, sewage treatment room, etc., with a total construction area of about 59,479.46 square meters.	59,479	in process
Qionglai City Traditional Chinese Medicine Hospital relocation project	It is planned to build 800 medical beds, with a total scale of about 90,000 square meters (including underground buildings), and to build a compound medical and medical care institution.	90,000	in process
1. Construction project of regional Medical Center of Ziyang First People's Hospital, 2. construction project of The Diagnosis and Treatment Center of Ziyang First People's Hospital, 3. the reconstruction and expansion project of Ziyang First People's Hospital	1.43560 square meters with 756 beds 2. 19,256 square meters, including supporting the green area of 3,073 square meters, supporting the construction of water supply and drainage system, power pipe network, communication system, fire protection and other facilities 3. The total construction area of the expansion is 20,000 square meters	102,316	in process
Sichuan Province First Traditional Chinese Medicine Hospital construction project	The planned total land area is about 61.90 mu, the total construction area is about 192,986 square meters, the above-ground construction area is about 124,347 square meters, and the underground construction area is about 68,639 square meters.	192,986	in process

Hospital projects

Project Name	project description	Project scale (m ²)	Staus
Construction project of Women and Children Center of Affiliated Hospital of North Sichuan Medical University	The total construction area is 85,744 square meters, including the construction area of new outpatient medical technology building of 39,207 square meters, of of 44,723 square meters, and of 1,814 square meters; supporting construction site paving, green space and landscape, sewage treatment facilities, outdoor pipelines and other ancillary projects.	85,744	in process
Gongyi City infectious disease hospital construction construction project	The total construction area of the project is 12588 square meters, and the total underground building is 2852 square meters. The construction is according to the standard of 110 beds, and the total construction technology is 9736 square meters.	12,588	in process
Shucheng County Traditional Chinese Medicine Promotion Project (Rehabilitation Business Building Project of Shucheng County Traditional Chinese Medicine Hospital)	it includes 8 single units: inpatient department, outpatient building, office building, office building, canteen, basement, doorguard, household garbage station and medical oxygen production station.	103,688	in process
Bozhou City Hospital of Traditional Chinese Medicine phase II project	The construction content includes single projects such as ward building, podium building, logistics building and basement, as well as landscape road, sponge city, greening, outdoor water supply and drainage, outdoor landscape lighting and wall and other ancillary projects.	59,209	in process
Tianfu New District Health Care Medical Center	The total construction area is about 87,500 m ²	87,500	completed since 12-2-2021

Hospital projects

Project Name	project description	Project scale (m ²)	Staus
Chengdu Blood Center	The total construction area is about 45,000 m ²	45,000	completed since 7-2020
Nanjing International Health City Life and Health Innovation Center	The total construction area is about 30,000 m ²	30,000	completed since 14-5-2020
Design, Build, Equipment and Operational Maintenance for the New HAHC Hospitals at Ahamadi & Jahra, Kuwait	Ahamadi About 37,000 m ² and Jahra about 50,000 m ² . The main building of each hospital is 5 floors above ground and one underground floor with construction area of 95,780 m ² ; 4 floors above ground and one underground floor with floor area of 21,400 m ² , 563 parking Spaces; 5 houses with floor area of 9145 m ² .	87,000	completed since 30-6-2019
...
