

SUPPORT WORKER

EMMA

CENTRAL & NORTHERN SUBURBS

I am a social butterfly who loves meeting new people and trying new things and challenges. I enjoy playing pool, spending time outdoors and I have a real passion for music, especially classic rock.

In my spare time you'll often find me swimming, going for walks or spending time at the beach.

I love being active and getting involved with fun activities like biking, playing tennis and badminton. Spending quality time with my family and being down at my local surf club are some of my favourite ways to unwind and connect with others. I have recently passed my surf life saving certificate which I am really proud of.

I really enjoy being around people, learning from different experiences and bringing positive energy in everything I do.
