

**Jeff Andrews**

*Owner, Andrews Business Consulting*

*Business Recovery Coordinator, NW CO Council of Governments*

*Board Member and Executive Committee Member, Vail Valley Partnership*

Jeff Andrews & his wife have lived and worked in the Vail Valley since 1997, and have owned their primary residence in Eagle-Vail since 2006. Jeff would bring over 30 years' experience managing and leading food & beverage and hospitality businesses to this role as Eagle-Vail POA Board Member. In his 17-year career with East West Hospitality he managed homeowners' associations of various sizes, working closely with Board Members in all aspects of their fiduciary responsibilities. He has significant experience supporting property managers in the areas of budgeting, replacement reserve and capital project management, Owner and Guest relations, as well as personnel development and training.

Since 2018, Jeff has operated his own small business consulting firm assisting locals in understanding market conditions and developing and executing business plans. He has helped to pivot businesses to changing environments and shifts in demand, and guided business owners in the navigation of various financing opportunities.

In his current role as Business Recovery Coordinator for the NW CO Council of Governments, Jeff is tasked with assisting county and municipal governments in standing up their own business resiliency and recovery efforts, with a particular focus on supporting small business. His residency working in Rocky Mountain ski communities has provided him with remarkable insight into the expectations of both permanent and transient community members.

Providing caring and balanced leadership in all endeavors, Jeff enjoys contributing to the growth of the local community by serving on the Board of the Vail Valley Partnership since 2015, and in Executive Committee since 2017. Guiding policy and programming for the VVP has been especially rewarding, and Jeff would bring similar visioning processes to assist the Eagle-Vail POA Board in understanding and meeting the future needs of both residents and renters.

Jeff enjoys music of all kinds, virtually any outdoor activity, and looks forward to traveling the globe again with his wife of over 25 years. Raised in Maplewood New Jersey, Colorado has been Jeff's home since 1982.
