

1968 TR5 PI For Sale

The house is on the market and I have decided simplify the garage we prepare to downsize and move South. This is 1 of 22 TR5s in the USA and Canada. This car features a factory installed 6-cylinder Lucas mechanically fuel injected engine. It has been carefully restored and is in excellent shape. No rust, new thrust bearings and rear main seal. New injectors and refurbished metering unit by Revington TR. This car has an HVDA 5 speed transmission conversion (original 4-speed has been carefully stored and is included with the car). New interior, radiator, water pump and hoses. New top, new tonneaus cover. New aluminum fuel tank and reconditioned Bosch fuel pump and filter. 60 spoke wire wheels with new 185R15 Vredestein Sprint classic tires. New exhaust system, rear coil over shock conversion and front and rear sway bar improvements. This car is a blast to drive and is as nice and unique as it sounds. Asking \$60K for this wonderful and rare car. Many extra parts included. 52K miles. More pictures can also be seen on the TR5 owner's website. "www.tr5pi.com". For more information and pictures, contact: Rob Ervin, rervin@ervtech.net.
