

The Absurdly Kind Foundation

If life is absurd, let's make it absurdly kind.

1. Our Why

The world doesn't always make sense. Opportunities don't always reach those who need them most. Talent often goes unseen. But amid life's contradictions, one truth remains: kindness changes everything. The Absurdly Kind Foundation exists to take that truth seriously - and playfully. We invest in people who dream big, create boldly, and pursue knowledge passionately, even when the odds seem absurdly against them. Our mission is to transform acts of kindness into meaningful opportunities for growth, learning, and creative expression. Because in an unpredictable world, kindness is the most meaningful rebellion of all.

2. Our Vision

We envision a world where kindness is not charity - it's collaboration. Where creativity and education aren't luxuries - they're lifelines. Where generosity becomes an everyday act of courage. Our ultimate vision is a society that celebrates imagination, nurtures talent, and ensures that potential is never lost simply because of circumstance.

3. Our Mission

To empower individuals in the performing and visual arts, and in education, through kindness-driven initiatives that open doors, amplify creativity, and build sustainable futures.

We do this by:

- Providing scholarships, mentorships, and resources to learners and educators.
- Supporting emerging artists, musicians, and performers through grants and creative platforms.
- Partnering with institutions and patrons who believe that kindness fuels transformation.

4. Our Focus Areas

Performing & Visual Arts Art is not a luxury - it's a necessity. It makes us laugh, cry, reflect, and imagine new possibilities. We support emerging artists, musicians, and performers who dare to put their hearts into the world. Through bursaries, residencies, and performance opportunities, we help creative voices find their place -

and their audience. Education Knowledge opens doors that poverty, circumstance, or chance too often keep closed. We believe that education - in all its forms - is a powerful act of hope. We support learners, educators, and community initiatives that cultivate curiosity, creativity, and critical thought. Our programs encourage learning that is compassionate, inclusive, and life-changing.

5. Our Philosophy

- Kindness is not weak; it's courageous.
- Giving doesn't diminish us; it multiplies what matters.
- Creativity and learning are absurdly powerful forces for change.
- True generosity begins with empathy — and ends in transformation.

6. How We Work

The Absurdly Kind Foundation operates through a model of collaborative generosity. We partner with individuals, communities, and organisations who share our belief that small acts of care can create disproportionate change.

We:

- Identify and support deserving candidates in the arts and education.
- Encourage community participation in funding, mentoring, and creative collaboration.
- Cultivate an ethos of joy, humour, and warmth in every interaction. Our administrative model is intentionally light - we invest more in people than in process.

7. Our Promise

We will champion the dreamers, the learners & educators, the performers, and the creators. We will turn absurd obstacles into absurd opportunities. We will never underestimate the power of kindness - especially when it's unexpected.

The Absurdly Kind Foundation

because absurd kindness just makes sense.
