the Octagon Bell Roof

Adding a unique touch to the octagon, the bell roof is a great way to accentuate your investment. The defined details and structural elements of the curved roofline are reminiscent of the 19th century and are similar to the Queen Anne style of architecture. This style was an important detail of the affluential homes and buildings of that era.

12' octagon with a bell roof, charcoal shingles, and copper finial.

10' vinyl octagon with a bell roof. It is shown with green shingles and green corbels.

Designed for Beauty..

Built to Endure...

the Octagon

The octagon style will create a scenic focal point for your backyard or community garden. You have the added benefit of expanding your entertaining space on your deck, beside your pool, or in a private garden. Whether your need is a place for personal relaxation, a family picnic dining area, or the setting for a celebration or memorable party, the octagon will suit your needs and living style beautifully.

The gazebo above is a 14' vinyl octagon with charcoal shingles and a gray floor

8' wood octagon with 6 benches and cedarshake shingles.

The octagon gazebo is our basic model; but with a broad variety of options to choose from, it is also one of our most popular.

10' wood octagon with shakewood asphalt shingles.

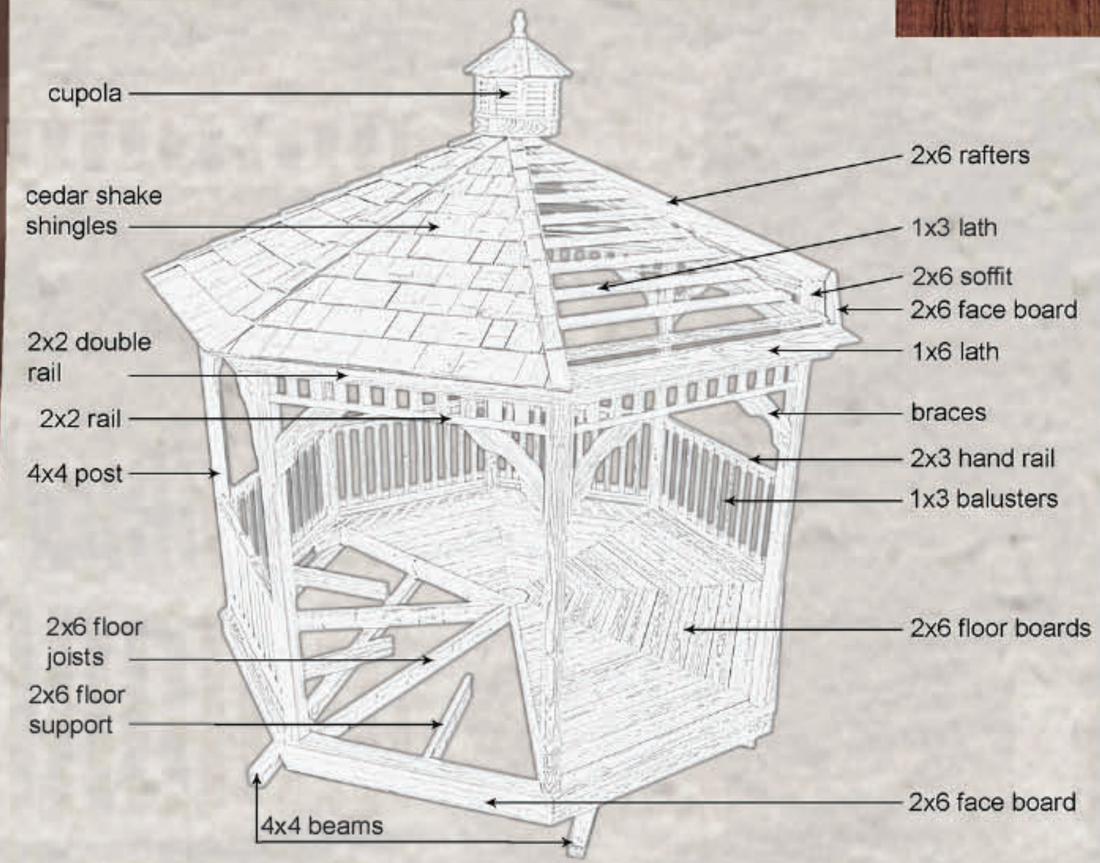

On the Cover:

The 14' vinyl gazebo shown on the cover is shown with 36" rails, synthetic cedar shake shingles, a double roof, and a screening package.

Construction

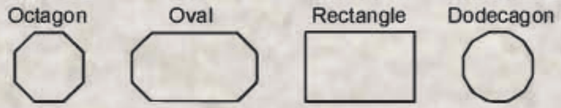

All of our gazebos are designed and built with high-quality materials and with structural longevity in mind. We start by using pressure treated 4x4 beams as a base. On top of these beams, we install 2x6 upright floor joists which are then covered with 2x6 floor boards. This creates a stable foundation for your gazebo. The posts are then inserted into precut holes, after which rails are added to the posts. To ensure quality, the roof is constructed on the ground with 2x6 rafters. When the framework for the roof is complete, we install 1x6 tongue and groove roof decking. Asphalt shingles are then installed. For optional Cedar shake shingles roofs, 1x3 lath boards are installed over the roof framework. These lath boards are then covered with cedar shake shingles. Finally, we anchor the roof to the posts. This entire process results in a gazebo that you can depend on to last and enjoy for many years to come!

For vinyl gazebos, the rafters are covered with ½" sheeting. The ashalt shingle color of your choice is installed on top of the sheeting. The interior of the ceiling is then covered in vinyl. This method of construction creates a roof that looks just as good inside as it does on the outside.

How To Order

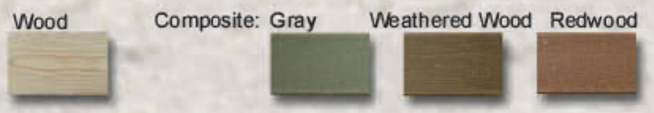

1.) Choose your size and shape.

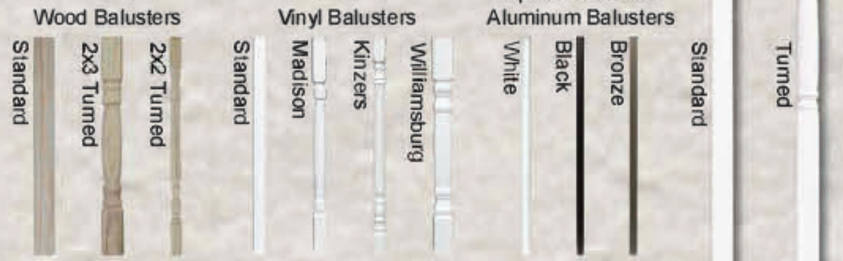

2.) Choose your building material.

3.) Choose floor material.

4.) Choose your baluster and post style. The standard baluster for a wood gazebo is a 1x3 baluster. The standard baluster for a vinyl gazebo is 2x2 square baluster.

5.) Choose your brace style.

6.) Choose your roof style.

7.) Choose your roofing material.
Asphalt shingles (standard)
Cedar Shake shingles (optional for wood gazebos)

8.) Choose any additional options:
Water repellent (wood gazebos)
Paint (wood gazebos white is standard)
Screening package
Screening under the floor
Electric package
Benches
36" high rails

the Octagon Double Roof

This 12' gazebo is shown with clay paint, and a double roof with water repellent.

12' vinyl gazebo with double roof, fox hollow gray shingles, and gray floor.

the Octagon

Our gazebos offer you the option of choosing between the simple symmetrical lines of the standard rails and posts, or the more ornate victorian look with turned balusters and posts. White is the standard color for our vinyl gazebos. You may consider upgrading to a tan or clay colored vinyl to match or coordinate with the color of your home. In addition, we offer multiple decking and shingle colors to personalize your purchase. All octagon gazebos come standard with a cupola.

14' white vinyl gazebo with no floor, and weatherwood shingles.

Double Roof

The gazebo to the left is a 12' vinyl gazebo with a double roof, spindle posts, Madison balusters, hickory shingles, and no floor. (Gazebos without floors must be built on site.)

Triple Roof

The gazebo to the right is a 16' vinyl gazebo with a triple roof, spindle posts, victorian braces, Madison balusters, red shingles, and a redwood floor.

the Dodecagon Pavilion

Not for the faint of heart, the pavilion gazebo is a massive beauty that is sure to be appreciated by all. This size lends itself perfectly to public places such as parks, schools, resorts, or golf courses. It has larger posts, rails, and braces to withstand the repeated public use that is expected of it.

The gazebo to the left is a 20' wood dodecagon pavilion. It is shown with clay paint, turned balusters, our electrical package, and a double roof with weatherwood shingles.

the Pavilion

18x36 double roof pavilion with 10' posts and 42" rails.

Due to the size of the pavilion, it must be built on site.

the Dodecagon

The dodecagon is a larger structure well suited to a public area or larger property. A dodecagon by definition is simply a 12-sided shape. We have applied this shape to our gazebos which results in a more rounded structure. Any gazebo that is 12' in diameter or larger can be ordered as a dodecagon.

The 20' vinyl dodecagon pictured below features victorian braces, screening, and a triple roof with charcoal shingles.

This dodecagon is smaller in size, but still just as impressive as the larger ones. It is perfect for the average yard or **limited space areas**. The gazebo shown is a 12'wood dodecagon. It features a double roof, turned posts and balusters, and **custom paint**.

the Octagon *steep roof*

The gazebo shown at left is a 12' tan vinyl octagon with a steep roof, square **bronze balusters**, screening, and barkwood shingles.

the Octagon *steeple roof*

The 14' vinyl gazebo below features a steeple roof with charcoal shingles and a screening package. This gazebo was custom built to create a seamless flow from the deck to the gazebo.

Like the featured unit, all of our gazebos can be ordered with **a screening** package.

the Oval

Whether you want to add to your existing landscape, or simply embellish your lawn with a graceful center piece, the aesthetically pleasing oval gazebo makes an excellent addition to any location.

This 12x16 vinyl gazebo is shown with screens and features a double roof. (All of our screened gazebos come with a door.)

The 10 x 16 vinyl oval pictured to the right features our screen option, it has synthetic slate shingles and a gray floor.

the Rectangle

Featuring a simplistic, four-sided design, the rectangle allows you to maximize interior space without sacrificing the refined look of the exterior.

The 16x20 vinyl rectangle above features a double roof with fox hollow gray shingles, a screening package, and cedar floor.

The 8x10 wood rectangle shown to the right is our basic rectangle model. The featured gazebo is shown with benches.

The 12x14 vinyl rectangle shown to the left features our window package (which includes screens) and pewter gray shingles.
