The following evidence was submitted/retained in a sealed condition:

ITEM 68 Exhibit 01 two swabs with the known saliva standard of "Peter Stripaitis"

RESULTS

The known standard of "Peter Stripaitis" was extracted for DNA.

DNA profiling of the known standard of "Peter Stripaitis" was conducted by PCR using the Yfiler Plus amplification kit, containing 25 STR loci.

A Y-STR profile was obtained from the known standard of "Peter Stripaitis".

DNA evidence will be maintained at the laboratory should further analysis be required.

Should further analysis be required, please contact this examiner.

The results portion of this report contains scientific judgments and interpretations rendered by the individual whose signature appears on the report.

Please pick up all appropriate exhibits at your earliest convenience.

- #25-L
(DT008)
- ITEM RFP Exhibit 01 L-1 One laboratory generated latent lift
- #26-L
(DT009)

RESULTS

As requested, AFIS and IAFIS searches were performed on two unidentified latents (2501 L-1 and 2601 L-1), however, no significant candidates were generated.

The results portion of this report contains scientific judgments and interpretations rendered by the individual whose signature appears on the report.

The following evidence was submitted/retained in a sealed condition:

ITEM 69 Exhibit 01 one medical alert bracelet
(CMF002)

RESULTS

The stains collected from bracelet were extracted for DNA.

The stain(s) from bracelet are of human origin, however failed to yield a sufficient amount of DNA for DNA profiling using the GlobalFiler amplification kit. Additional analysis was not conducted.

DNA evidence will be maintained at the laboratory should further analysis be required.

Should further analysis be required, please contact this examiner.

AFFIDAVIT FROM VENICE POLICE DEPARTMENT

I, Todd Reale being first duly sworn under oath state as follows:

1. I am a police officer with the Venice, Florida Police Department.
2. On today's date, I made contact with a Peter Stripaitis, whom I identified by a photo identification presented to me.
3. In accordance with my training, I took a buccal swab from the mouth of Peter Stripaitis to collect a DNA sample from him. I packaged this swab in a sterile container, and I had this sealed container sent to the **Northeastern Illinois Regional Crime Laboratory, 1000 Butterfield Rd., Ste. 1009, Vernon Hills, IL 60061** along with this affidavit.

Under penalties as provided by law pursuant to Section 1-109 of the Code of Civil Procedure, the undersigned certifies that the statements set forth in this instrument are true and correct, except as to matters therein stated to be on information and belief and as to such matters the undersigned certifies as aforesaid that he verily believes the same to be true.

AFFIDAVIT OF PETER STRIUPAITIS

I, Peter Striupaitis being first duly sworn under oath state as follows:

1. That I have personal knowledge of the facts contained in this affidavit and if called to testify would testify truthfully, and completely to the facts contained in this affidavit.

2. I, Peter Striupaitis, am a former employee of the Northeastern Illinois Regional Crime Laboratory in Vernon Hills, Illinois and was with the crime laboratory during the period of time between 2007 and 2011 when the case of People of the State of Illinois vs. Marni Yang was investigated and proceeded to trial. I also testified at this Defendant’s trial.

3. As part of my duties at the Northeastern Illinois Regional Crime Laboratory, I conducted firearm and toolmark analysis on several items of evidence collected in this case, to include firearm ammunition and shell casings.

4. During examination of the items of evidence in this case I handled the items with my hands. I did not use gloves or examined the items in a sterile environment. This is because the firearm and toolmark section is not a sterile section of the crime laboratory and items of evidence requiring DNA or fingerprint testing are sent to those sections first for DNA and fingerprint testing before being sent to the firearm and toolmark section.

5. On today's date, I made contact with an officer from the Venice, Florida Police Department and provided a DNA sample obtained from a buccal swab of my mouth to be sent along with this affidavit to the **Northeastern Illinois Regional Crime Laboratory**.

Under penalties as provided by law pursuant to Section 1-109 of the Code of Civil Procedure, the undersigned certifies that the statements set forth in this instrument are true and correct, except as to matters therein stated to be on information and belief and as to such matters the undersigned certifies as aforesaid that he verily believes the same to be true.

Comments : Spoke with Jason Humke from LCSAO. He is going to have Pete Striupaitis' standard collected and sent from a PD in Florida where Pete is currently. I said they could send it directy to the lab and we would enter it under this case number. Both Humke and Deerfield will get a copy of the submission paperwork.

Forensic Case Report
July 26, 2020

To:
Jason Humke
Lake County State Attorney's Office
18 N. County Street
Waukegan, IL 60085

Bode Case #: CCA2081-0125
Agency Case #: 09 CF 926

Subject: Marni Yang

List of evidence received on June 25, 2020 for possible DNA analysis:

<u>Bode Sample Name</u>	<u>Agency Sample ID</u>	<u>Agency Description</u>
CCA2081-0125-E01	29683-100518-Q3	Bracelet [extract]
CCA2081-RB1	xSN-20179025	Reagent blank [extract]
CCA2081-RB2	SB 2017-0925	Reagent blank [extract]

STR Processing, Results, and Conclusions:

The evidence was processed for DNA typing using the GlobalFiler® kit.

1. The partial DNA profile obtained from sample CCA2081-0125-E01 is consistent with a mixture of at least two individuals including at least one male contributor. Due to the possibility of allelic drop out, no conclusions can be made on this mixture profile.

See **Table 1** for summary of alleles reported for each sample.

Notes:

1. Testing performed for this case is in compliance with accredited procedures under the laboratory's ISO/IEC 17025:2017 accreditation issued by ANAB. Refer to certificate and scope of accreditation for certificate number FT-0268.
2. The results reported in this case were determined by procedures that have been validated according to the standards established in the FBI's Quality Assurance Standards for Forensic DNA Testing Laboratories.
3. Evidence descriptions are based on the written descriptions of the samples by the submitting agency.
4. The results apply to the items tested or data provided, as received.
5. The opinions and interpretations included in this report are those of the undersigned analyst.
6. This test report shall not be reproduced, except in full, without the written approval of the laboratory.
7. The submitted evidence associated with samples CCA2081-RB1 and CCA2081-RB2 were consumed. The remaining submitted evidence will be returned to Lake County State Attorney's Office.
8. Samples CCA2081-RB1 and CCA2081-RB2 were processed as the reagent blanks associated with sample CCA2081-0125-E01 and produced the expected results.

Case Background & Instructions:
If this is an additional submission, please note previous Bode Technology Case Number here:

We are seeking comparative DNA testing on a DNA extract created by a lab utilized by the defense - this other lab consumed the sample swab and used a test kit that could only test at 16 location (Identifiler) - testing revealed a mixture and it appears the Defendant's DNA could be within this mixture - we are seeking testing using a superior test kit and STRMix if possible to determine whether Defendant's DNA is present.
DNA extract and known standard of Defendant's DNA being sent directly from Independent Forensics:

IFI Case # 29683 Exhibit # 9: buccal swab (intact).

If STR data is obtained, will CODIS entry or search be requested? Yes No

NOTE: Private forensic DNA laboratories **do not have access** to enter or search samples in CODIS. If "yes" is marked, Bode Technology will contact the appropriate NDIS laboratory Technical Leader prior to initiation of this case. Please be aware that this may increase turnaround time.
If requesting Expedited service, approval from appropriate NDIS laboratory is required prior to case submission.
