Round 12, 2026

ROO PRIDE

'Progress Pride' Colours

In addition to the traditional rainbow colours representing life, healing, sunlight, nature, harmony and spirit, Progress Pride colours include black, brown, pink, light blue and white to recognise people of colour, transgender people, and those living with or lost to HIV/AIDS.

Together, the colours celebrate equality, respect and the strength that comes from embracing people of all backgrounds and identities.

At Brothers AFC, we believe football is for everyone. Pride Round reflects our commitment to building a welcoming, respectful and inclusive club where every player, volunteer, official and supporter feels valued, safe and proud to belong. By celebrating diversity and fostering a culture of respect, we strengthen our club and our community.

INCLUSION

Brothers AFC welcomes players, coaches, volunteers, officials and supporters from all backgrounds and experiences, recognising that everyone has a place in our club community.

RESPECT

The club values treating all people with dignity and respect, regardless of their gender identity, sexual orientation, culture, age or ability.

BELONGING

Pride Round reinforces the importance of creating an environment where every member feels safe, supported and valued for who they are.

COMMUNITY

As a family-oriented club, Brothers AFC believes that strong communities are built when people come together, celebrate diversity and support one another.

COURAGE

Just as football requires courage on the field, Pride Round recognises the courage of individuals to be authentic and encourages allies to stand up against discrimination and exclusion.
