

KARLY PRICE #44

Flat Track Racer

Introduction

Hi Everyone! My name is Karley Price! My family calls me Kar! I love riding and racing motorcycles on a dirt track with my dad and little sister. I am one of the few girls in a male dominated sport, and I want to continue paving the way for female racers like me! I like to pretend that I am a professional female racer getting to race with all the other great riders! I sure do love winning first place against all those boys! For 2024 I am moving up to the 65cc Class.

We are looking for help for the Season. Racing is more than just a sport for me. I am learning grit, mental toughness and how to keep going after facing the adversity of a wreck.

Being able to race with my family and friends is a blessing, and what I love to do! Any support helps us and we appreciate the consideration. Thank you!

Quick Bio

Experience and Goals

I started racing a CRF50 when I was 6 years old at the Devil's Bowl Speedway in Mesquite, TX. I have won multiple races including Fandango in Fredericksburg back to back, and some other local races in central Texas and Tulsa, Oklahoma. I have also won 2nd and 3rd place in the season championships.

This Season is a big step moving up to the 65cc Class. I will still be Racing my 110 as well, but am hoping with lots of practice and seat time to get fast on my 65! I plan to do as many Races as possible and one day I want to be a Professional Flat Track Racer!
