

## The Best You. Let's Find it Together.

Accelerate your career growth by applying to the Airgas Rotational Career (ARC) Program

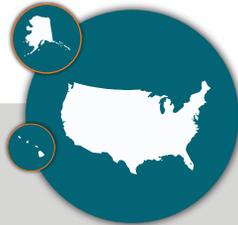

### Ambitious grads wanted!

If you're a recent college graduate interested in pursuing an exceptional career in Engineering, Operations, Supply Chain, Finance or Human Resources, then you need to apply to the Airgas Rotational Career (ARC) program.

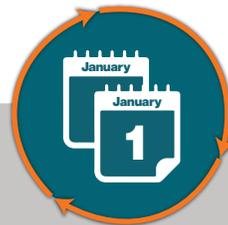

### A great way to jump start your career

Open to recent college graduates (within the past two years)

Nationwide placement

Two-year program with three 8-month rotations

Opportunities in Engineering, Finance, Operations, Supply Chain and Human Resources

### What do I need to know?

ARC is a highly competitive two-year rotational program designed to advance your career by providing training and exposure in key areas that impact our business.

### How does the program work?

As an active member of ARC, you'll get real-world experience by participating in three 8-month rotational assignments based on Airgas' strategic objectives, specific departmental needs, and your interests and technical qualifications (coursework and degree).

### Who will I work with?

You'll work directly with leaders and mentors who will contribute to your career development while helping you build technical and leadership skills. You'll meet periodically with other ARC participants for development sessions where you can exchange insights while strengthening your network and relationships.

### What happens after two years?

Based on successful completion of the program, Airgas will work with you to find a full-time role within the company that matches your skills, aspirations and interests.

### What do I need to apply?

- A bachelor's or master's degree in Engineering, Chemistry, Business or a related field
- Prior internship/co-op and/or work experience
- Strong critical thinking, collaboration and problem-solving skills
- Excellent interpersonal skills with demonstrated ability to effectively interact with cross-functional teams
- Ability to prioritize workload and self-manage projects, handle multiple tasks, and meet strict deadlines
- Demonstrated leadership ability and ethical standards
- Understanding of customer care and willingness to ensure customer satisfaction
- Willingness and desire to travel and remain mobile during and upon successful completion of the program
