

# MARK YOUR CALENDARS

## FALL 2021 VIRTUAL FINTECH CAREER FAIRS

Recruit top talent for your organization from a pool of **specialized FinTech students** that attend Georgia's 26 public institutions and are enrolled in the Georgia FinTech Academy's upcoming virtual FinTech Career Fairs. The career fairs typically bring in 350-450 students at the junior, senior, and graduate levels. All students have been learning about fintech and the financial services industry. Consider this fintech career fair as a great opportunity to find internship and full-time candidates. Majors include computer science, computer information systems, finance, accounting, and marketing.

The Georgia FinTech Academy gives learners the specialized educational experiences needed to enter the FinTech sector regardless of where they live in the state or the college in which they enroll. Review our calendar of events and then sign-up to **secure your spot** to recruit from Georgia's emerging FinTech professionals.
