

# The Ultimate Wedding Day Roadmap, Instructions, 2-Page Checklist & Bonuses

## Plan a Seamless, Stress-Free Wedding That Reflects What Matters Most

This checklist helps you:

- Discover what you truly want (and don't want) at your wedding
- Prioritize what matters most
- Build a personalized, efficient timeline
- Save money, reduce stress, and maximize your time with family and friends

### Follow these 10 simple steps:

**Step 1:** Print out the four pages and have a pen or pencil ready.

**Step 2:** On the Roadmap, strike through any events you don't want at your wedding. On the Checklist, mark those same events with an “E” for Eliminate.

**Step 3:** Mark all must-have events with an “A.” These are essential for achieving your desired wedding day experience.

**Step 4:** Choose the most important “A” event and mark it “A1.”

**Step 5:** Identify the second most important “A” event and mark it “A2.”

**Step 6:** Continue numbering all your “A” events in order of importance (A3, A4, etc.).

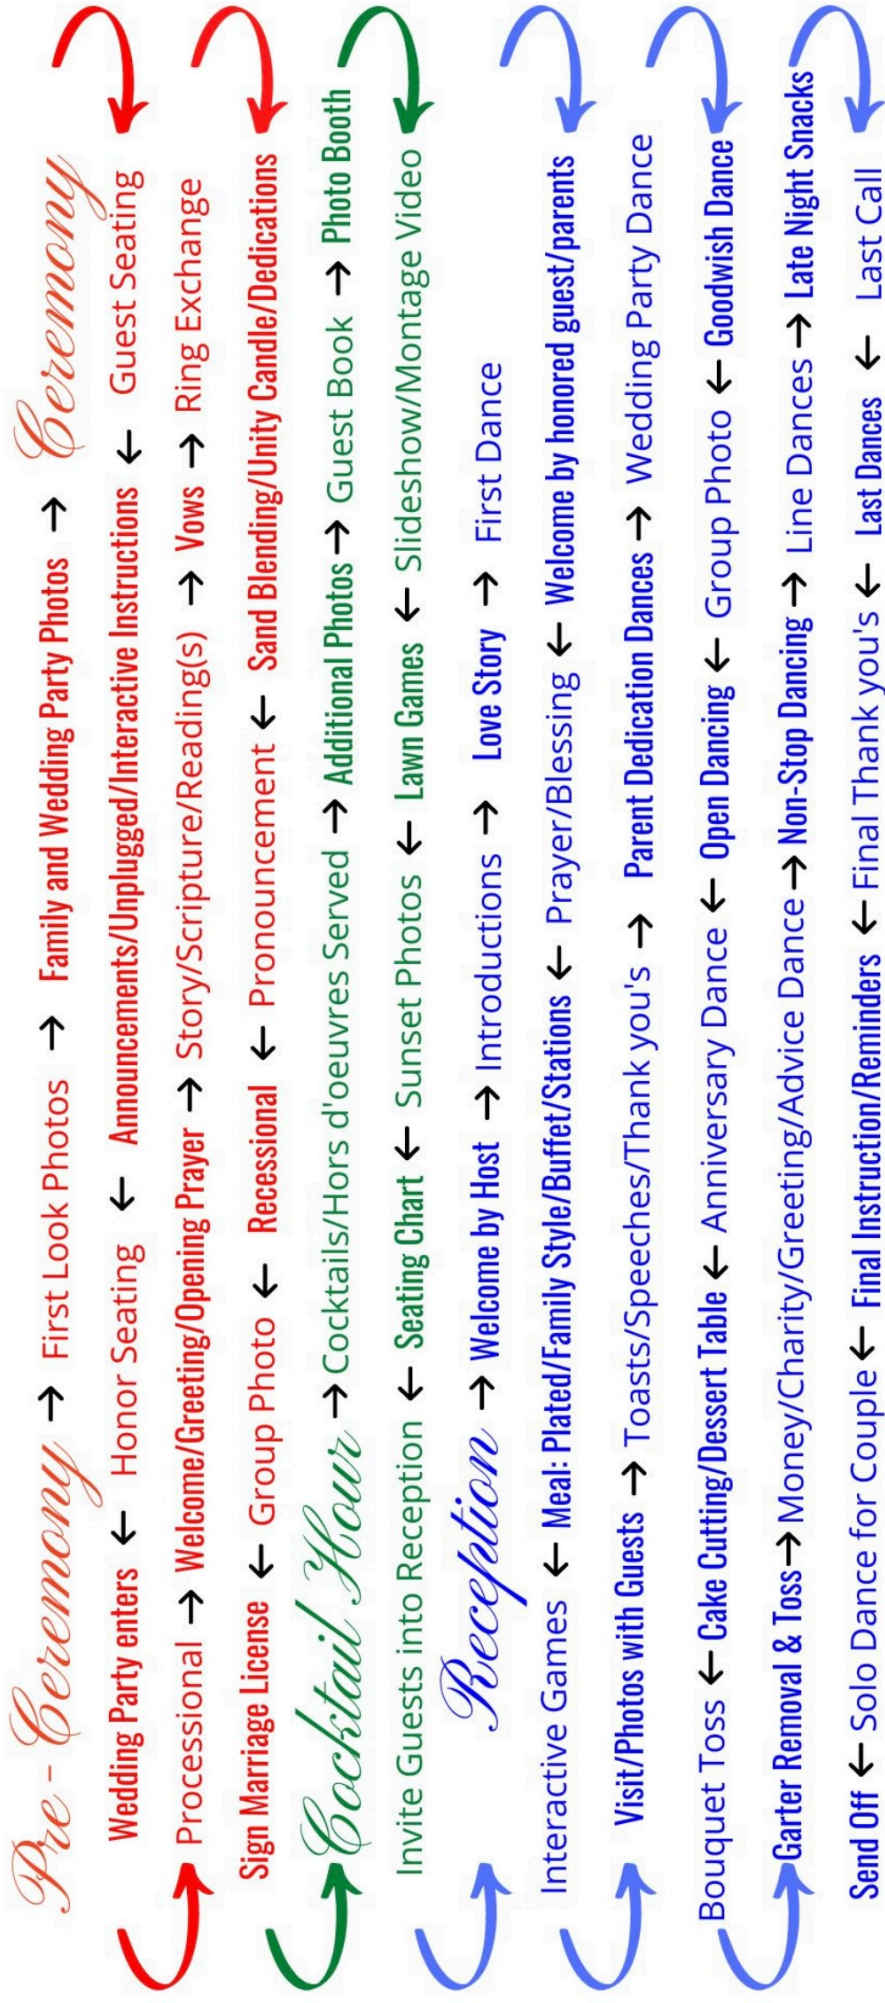

**Step 7:** Mark events you'd like but can do without (if necessary) with a “B.” Do not spend any time or money on “B” events until all “A” events are confirmed and budgeted. Number them in order of importance (B1, B2...).

**Step 8:** Mark optional bonus events with a “C.” These are items you can add if there's room in your budget after completing all A and B events. Prioritize these too (C1, C2...).

**Step 9:** Mark events that can be delegated with a “D.” Only delegate if the event is not critical (i.e., not an A-level item). Reclassify as needed, then number accordingly (e.g., D1, D2, etc.).

**Step 10:** On each of your “A” events, **circle the vendor** you believe will make the most significant impact in transforming that moment into a meaningful memory, or write in your vendor.
