

SPECS

High Strength Steel

Using our 50+ years of experience with processing metal we chose to only use high strength steel. This allows us to make a product that is better for the installer while allowing for maximum patterning for an incredible slate look.

Panels Per 100 sq/ft: 30
Weight Per 100 sq/ft: 81 lbs
Panel Exposure: 45.25" x 10.75"
Panel Material: G90 Galvanized Steel 30 Gauge ASTM A653

Exceptional Roofing Services

When it comes to roofing, no one beats RoofNow®. Our industry-leading lifetime Metal Roof is engineered to be the last roof you will need to protect your home, cottage, or business. Combining the strength of steel with the beauty of a natural slate-shingle design, our metal roof is stunning on any building while being extraordinarily resilient to foot traffic, extreme weather and even large hail. Not only does our roof increase the resale value of your home, but it's also energy-efficient, meaning you save money on cooling costs! Discover all the reasons why doing your roof right can save you thousands here.
