## NEW PRODUCT RELEASE

# NEW Anti Viral Medical Air Sanitiser Foggers

### 120g & 200g Air Sanitiser

Keep your Staff and Clients SAFE with NO Fuss

The new “normal” into the future will be to keep our businesses sanitized continually to protect our staff, & clients and give customers confidence to keep them coming back to our businesses

You can now take matters into your own hands with our **NEW RELEASE Anti Viral Medical Air Sanitiser Foggers** by Southern Cross

Proudly Made in Australia the **Anti Viral foggers** are specifically designed to eliminate 99.9% of germs on contact

The cost effective medical grade and approved products are made to World Health Organisation (WHO) formula and are 100% human and pet friendly

Available in 2 sizes the 125g aerosol can is perfect for defeating germs in small rooms, vehicle interiors, kitchens, bedrooms etc. to ensure a germ-free and safe environment within a 4 cubic metre radius

The larger 200g aerosol can is designed to cover substantial areas up to 30 cubic metres and ideal for use inside medium to large shops and businesses

Both size aerosol cans have a dual function and can be used as an aerosol spray or as a “press and set” canister

For easy “press and set” use, simply place the canister in the centre of a room (or any indoor area), depress the trigger button until it clicks and leave the room whilst the contents of the can are dispensed continuously within the desired radius eliminating 99.9% of germs from the air and surfaces for up to 72 hours (dispense time app 3 minutes)
