About us

Naoum Chemaly

Meet our Founder and CEO, Naoum Chemaly – a Safety Visionary: "Safety isn't a choice; it's a shared responsibility. Our dedication to Safety mirrors our core values; at NC Safety Consultants, we prioritize preparedness as the cornerstone of prevention."

With nearly two decades as an HSE expert, his unwavering commitment has propelled numerous companies to safety excellence. Rooted in his Lebanese heritage, our CEO champions authenticity, integrity, and respect, guiding his every endeavour with unwavering dedication and ethical conduct.

Leadership courses through his veins, manifesting in action and example. As an essential team member, he engages and guides, actively driving project execution. His leadership style fosters collaboration, valuing diverse perspectives to amplify overall effectiveness.

Trials have tested our CEO's resilience, fortifying his resolve to excel amidst turbulence. His journey stands as a testament to his unyielding commitment to success.

Years of experience have honed his ability to manage diverse stakeholders and teams, earning him rewards and recognitions, appreciating varied perspectives and fostering innovation through inclusivity.

Accreditations and Certificates

Services

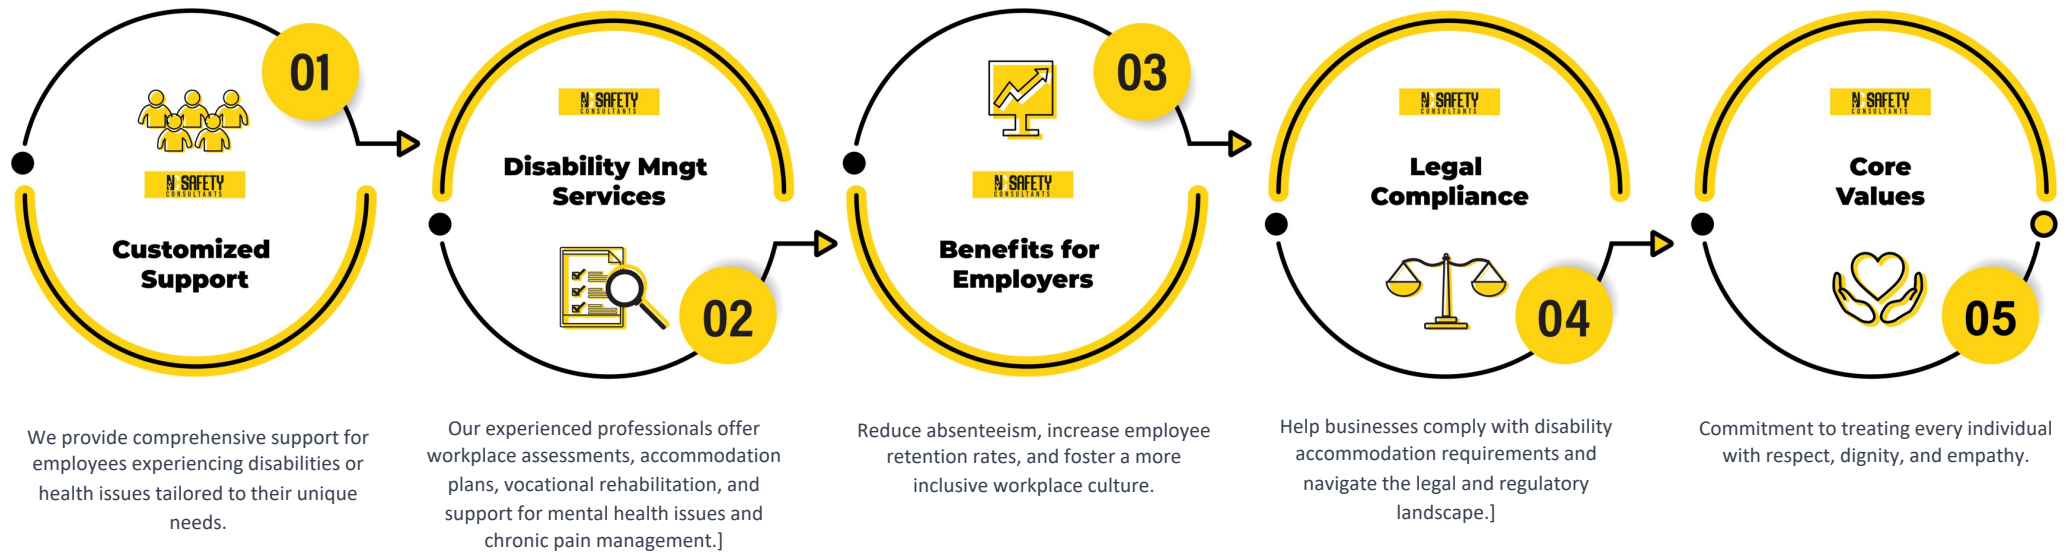

01

Compliance Inspections and Audits

02

Disability Management

03

Electrical Safety

We assess your workplace to identify electrical hazards, evaluate existing safety measures, and recommend improvements.

We provide training to your employees on electrical safety best practices, including how to properly use and maintain electrical equipment, how to identify electrical hazards, and how to respond to electrical emergencies.

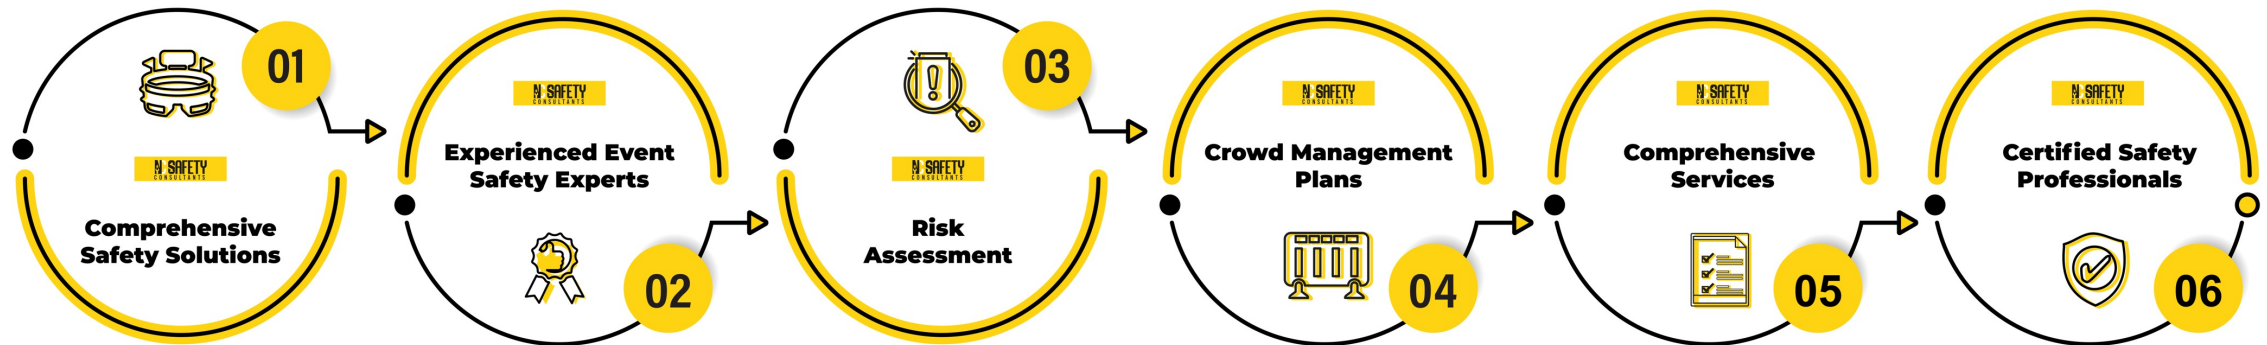

We perform regular audits of your electrical systems and equipment to ensure they comply with local and national regulations and function properly.

We help you develop an electrical risk management plan, which includes identifying potential hazards, evaluating risks, and implementing measures to mitigate those risks.

We help you develop an overall electrical safety program, including policies, procedures, and training programs tailored to your specific workplace and needs.

04

Event Safety

We offer comprehensive event safety solutions to plan, prepare, and execute your event safely and successfully.

Our team has years of experience in planning and managing events of all types and sizes.

Assess risks, develop customized safety plans, and ensure the safety of attendees, staff, and vendors.

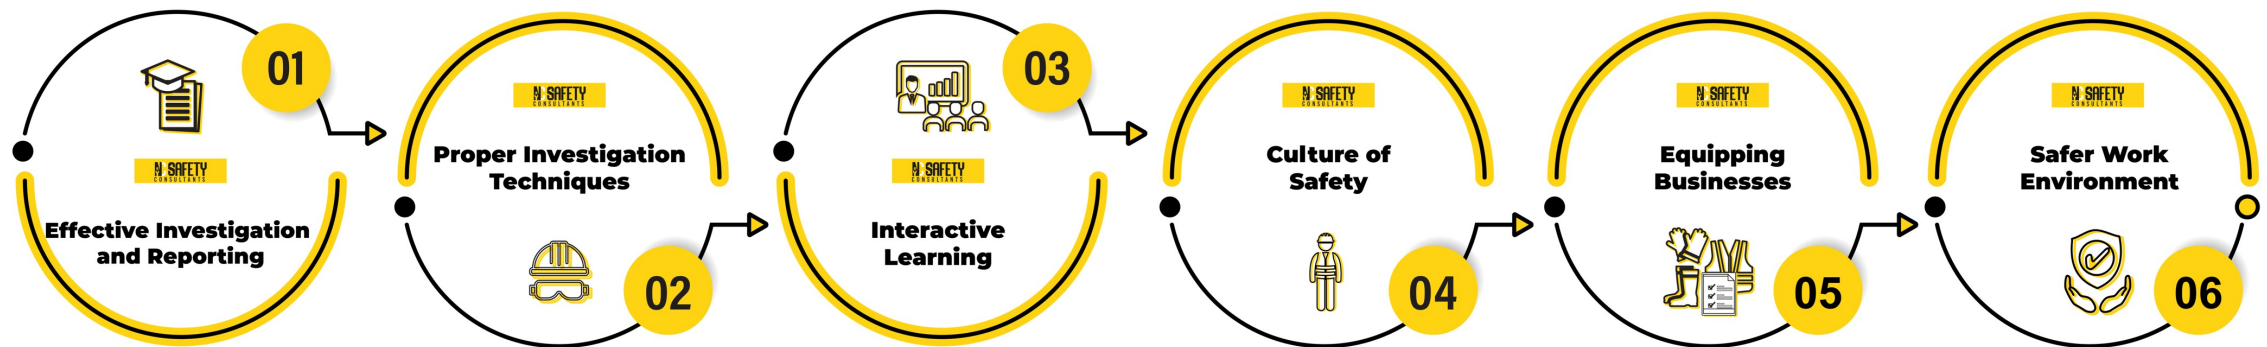

Strategies for managing entrances, controlling crowd flow, and responding to emergencies.]

Risk assessments, safety planning, emergency preparedness, staff training, and on-site safety management.

Our team has extensive knowledge of event safety standards and best practices.

05

Incident Investigations and Reporting

Equip businesses with knowledge and skills to investigate and report workplace incidents.

Train on root cause analysis, identifying contributing factors, and recommending corrective actions.

Engage participants with case studies and hands-on activities for practical application.

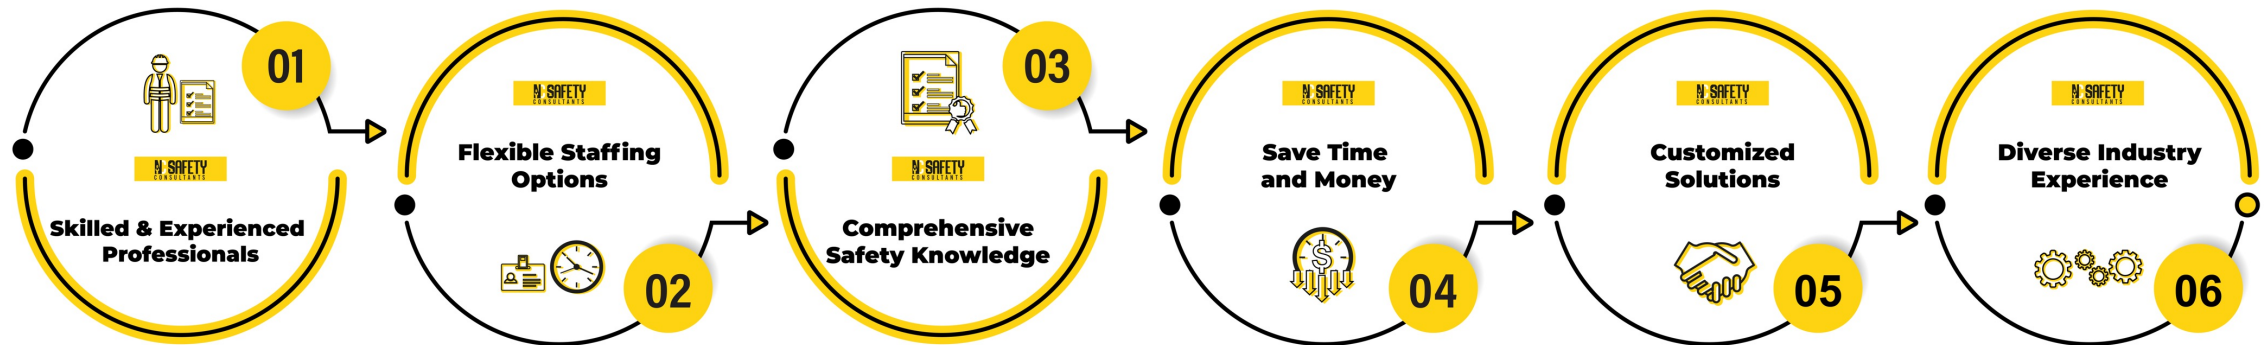

Foster a safety-focused workplace culture through incident investigation and reporting.

Dedication to providing necessary knowledge and tools for proficient incident investigation and reporting.

Aim to create a safer and healthier work environment for all employees.

06

HSE Policies and Procedures Development

Access highly qualified safety professionals for employee health and regulatory compliance.

Choose temporary or permanent safety professionals for short or long-term needs.

Experts in health and safety management, risk assessment, hazard identification, and compliance.

Access top-quality professionals without recruitment, hiring, and training costs.

Work closely to understand your needs and provide the right safety professional.

Professionals experienced in construction, manufacturing, oil and gas, events and more.

07

Safety Management, Professional Staffing

Protect employees, minimize risks, and ensure compliance with regulations.

Develop customized policies and programs based on regional and company needs.

Identify potential hazards and risks through a comprehensive organization assessment.

Develop policies and procedures that are practical, easy to understand, and reflect company culture.

Provide employee and management training, along with ongoing support for effective implementation.

Ensure program integration into daily operations and alignment with company values and goals.

Update existing or develop new programs tailored to specific needs and employee protection.

08

Health and Safety Training and Education

Interactive, engaging, and practical courses to prevent accidents and injuries.

Choose from a wide range of workplace safety courses tailored to meet your specific needs, including Accident Investigation, Confined Spaces, First Aid, Mental Health and more.

Tailored courses to meet specific needs, delivered by experienced and qualified trainers.

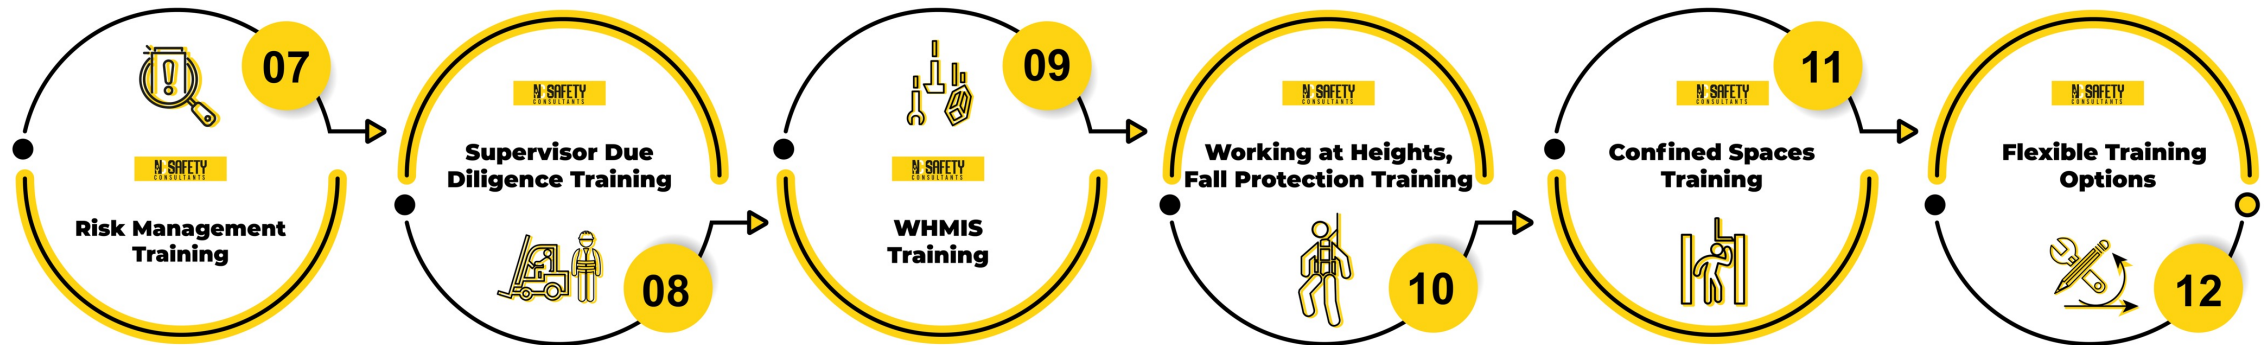

Learn effective investigation and reporting of workplace accidents and incidents.

Covers CPR, choking, bleeding, burns, and more.

Recognize and respond to mental health crises.

08

Health and Safety Training and Education

Identify and assess risks in the workplace.

Understand legal obligations as a supervisor.

Stay updated with the latest regulations for handling hazardous materials.

Learn to work safely at heights.

Gain knowledge and skills to work safely in confined spaces.

In-person, online, or combination courses. Customization available.

Return on Investment

A Cost-Effective Approach to Compliance

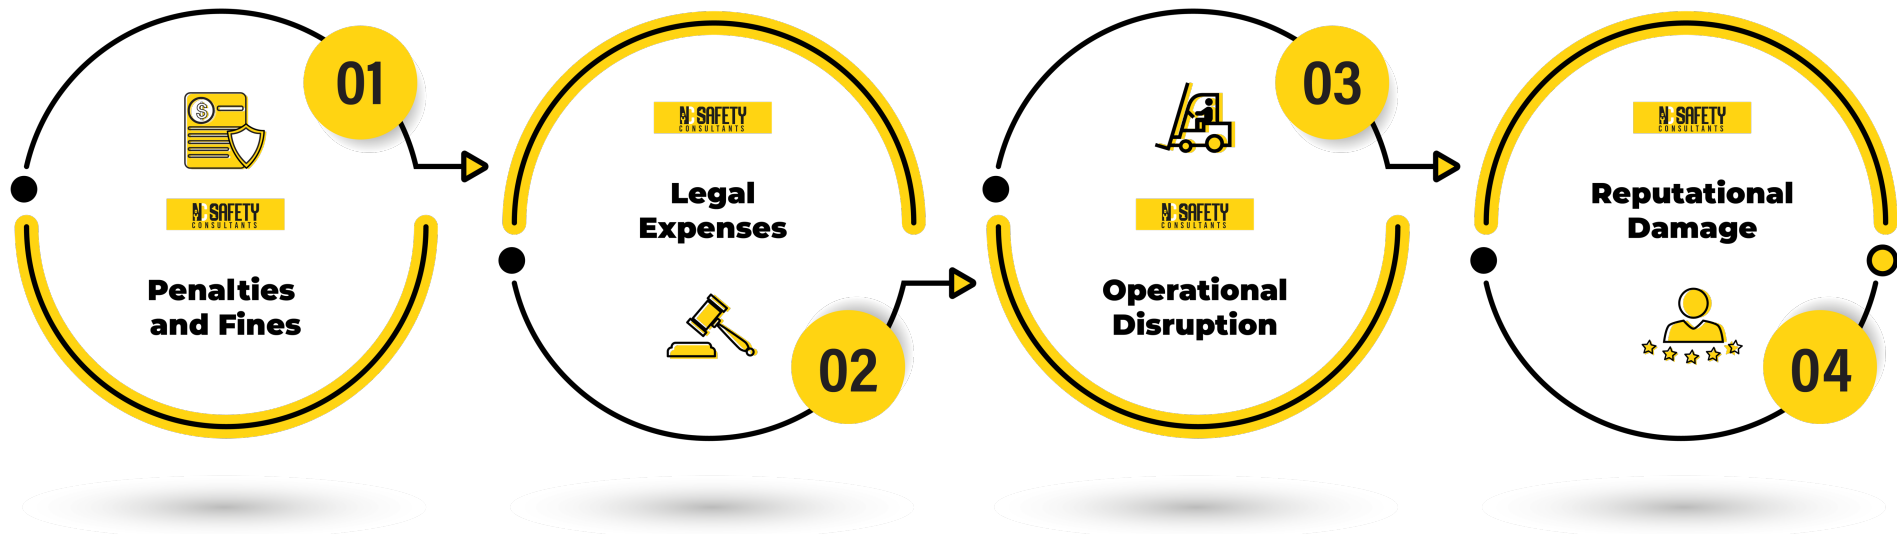

In today's corporate landscape, organizations face increasing pressure to prioritize health, safety, and environmental (HSE) compliance. Failing to meet regulatory requirements can lead to severe financial repercussions and reputational damage.

The Costs of Non-Compliance: Non-compliance with HSE regulations can have far-reaching consequences for businesses.

The Direct and Indirect Costs Associated with Non-Compliance

The direct and indirect costs associated with non-compliance can quickly accumulate, impacting both financial stability and brand reputation. These costs may include:

Hiring an HSE Consultancy Firm

Hiring an HSE consultancy firm can provide a cost-effective solution to ensure compliance and mitigate the risks associated with non-compliance. Consider the following factors when assessing the ROI of engaging an HSE consultancy firm:

Investing with NC Safety Consultants

Investing in an HSE consultancy firm is a strategic decision that yields a significant return on investment. The costs of non-compliance far outweigh the fees associated with hiring an HSE consultancy firm. By ensuring compliance, mitigating risks, optimizing operations, and safeguarding reputation, organizations can protect their financial well-being and position themselves for sustainable growth in today's demanding business environment.

- Foundries

Chill'N-Work Series – Cooling PPE

ITEM: NCS – Evaporative Cooling Vest - GCC2024-1

DESCRIPTION

NCS Evaporative Cooling Vest: Soak in cold water and enjoy cooling relief and comfort. Hot conditions are tough on workers and productivity. The Chill'N-Work Series provides cooling through evaporation to keep workers comfortable all day long.

- Water-repellent liner and black cotton-poly elastic trim
- Activated, polymer-embedded fabric inside
- Quilted nylon outer later
- V-neck with zipper closure
- Nylon

Chill'N-Work Series - Cooling PPE

ITEM: NCS – Phase Cooling Cooling Vest - GCC2024-2

DESCRIPTION

NCS Phase Changing Cooling Vest: The Chill'N-Work® Premium Phase Change Cooling Vest by NC Safety with Packs keeps workers cooler, safer and more productive, maintaining a 64° F (18° C) temperature for up to 4 hours when activated. The adjustable hook and loop closures at the shoulders and waist provide a customised and comfortable fit, while two pen slots on the right side of the vest keep your writing utensils handy. They are designed for more visibility on busy streets or job sites.

Safety Features:

- Maintains constant 64°F/18°C for up to 4 hours
- The cooling lifecycle lasts up to four hours
- Hi-Vis reflective striping for added visibility
- Flame resistant

Materials/Fabric:

- Modacrylic cotton blend FR fabric

Other Features:

- Packs recharge in as little as 10 minutes
- Adjustable hook and loop closures on both shoulders and waist
- Extended vest surface area enhances cooling power
- No airflow required
- Lightweight and adjustable
- Machine washable

Chill'N-Work Series - Cooling PPE

ITEM: NCS – Circulatory (Pumped Water) Cooling Vest - GCC2024-3

DESCRIPTION

NCS Circulatory (Pumped Water) Cooling Vest: the circulatory vests are the most advanced and the coolest (temperature-wise) of the cooling vests. Based on technology developed by NASA, these vests and one shirt work by circulating cool water through non-kink tubing around the wearer's body. As this water moves through the system, it removes heat from your body, which cools you down. This water then flows back through the system unit to a reserve of ice-cold water. The circulating water then automatically cools before being re-circulated around the vest.

- It has different power options, including a 12V battery and standard outlet.
- Provide a cooler temperature than both evaporative and phase - changing cooling vests.
- Works in high humidity.
- Available as shirts and vests.
- It can be used as a rehabilitation station for construction workers or emergency services.

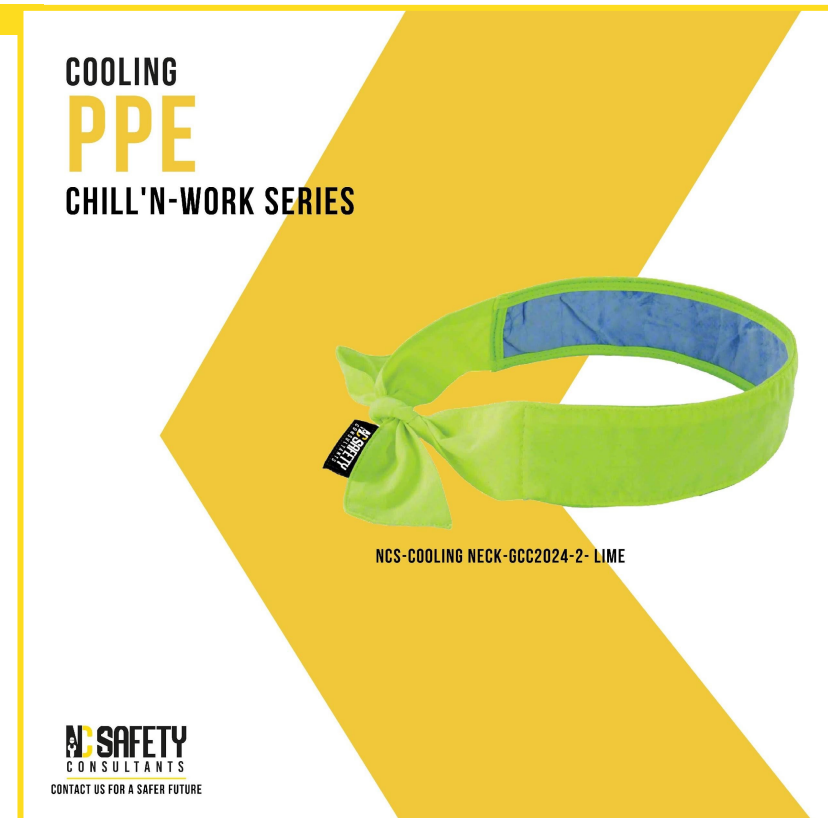

Chill'N-Work Series - Cooling PPE

ITEM: NCS-Cooling Neck - GCC2024-4- Lime

DESCRIPTION

NCS Cooling Neck: Soak in cold water and enjoy cooling relief and comfort. Hot conditions are tough on workers and productivity. The Chill'N-Work Series provides cooling through evaporation to keep workers comfortable all day long.

- **Garment Type** Head Band
- **Cooling Method** Evaporative - Soak
- **Cooling** Yes • Maximum Cooling Time Up to 4 hours
- **Material** Cotton • Closure Type Tie • Adjustment Type- Ties

Chill'N-Work Series - Cooling PPE

ITEM: NCS- High - Performance Cooling Cap - GCC2024-5

DESCRIPTION

NCS High - Performance Cooling Cap: Bandanas cover the top of the head and brow to absorb sweat and prevent it from running into the eyes. They can also be soaked in water to help keep workers cool.

- **Garment Type** Head Band
- **Cooling Method** Evaporative - Soak
- **Cooling** Yes • **Maximum Cooling** Time Up to 4 hours
- **Material** Polyester/Spandex • **Closure Type** Elastic Tie Band • **Adjustment Type** Elastic
- **Size** Universal • **Overall Width** 5-1/2 in • **Ultraviolet Protection Factor** 50
- **Features** Anti-Odor Treatment , Instant Cooling Relief , Low-Profile Design; Reflective Accents

Chill'N-Work Series - Cooling PPE

ITEM: NCS- Evaporative Hard Hat Cooling Pad - GCC2024-6

DESCRIPTION

- NCS Evaporative Hard Hat Cooling Pad: the Chill'N-Work Evaporative Hard Hat Cooling Pad straps into hard hats to deliver four hours of cooling relief. The low-profile and lightweight liner pad features advanced PVA cooling technology for instant cooling without bulk or slime, making it comfortable to wear under hard hats. This hard hat liner pad fits most hard hats and safety helmets, easily and securely attaching to the suspension with two hook & loop straps.
- Instant cooling relief - hyper-evaporative PVA quickly activates with water for up to four hours of cooling.
- Fits most hard hats & safety helmets – hook & loop straps securely attach to suspension low - profile – for no-bulk wear under hard hats comfortable –
- 100% cotton reusable – re-wet to reactivate cooling
- Machine washable // air dry.
