

Southern Ocean Oral Surgery & Implant Center
Dr. Anthony Navilio

To our valued patients:

- We are not in network with any medical or dental insurance, including Medicare and Medicaid.
- Once the surgery is completed we will print out your claim forms for you to submit if you so choose. (If you have Medicare we cannot print a claim since we opted out of Medicare and no claims will be considered by them.) On the claim we indicate that the payment should go directly to you, the patient (or subscriber), NOT to us. Even with this sometimes the insurance company will send the payment to us. In that case we can attempt to sign the check over to you, however if your bank will not accept that we have no choice but to send the check back to the insurance company and have them re-process the claim. While no guarantee, if you call your insurance company once you verify the claim is received and specify to them that you have a zero balance and any and all checks should go to you, this may help.

By signing below you indicate that you understand and accept all of the above.
