“We weren’t meant to burn our dead.”

After escaping the cult that nearly destroyed him, Kit Mosel has built a new life. He’s sure that no one in town knows his real name or what he did, until Penwell Oliver appears, desperate for help retrieving his father’s stolen remains from the very cult Kit fled.

Kit knows he should say no, but there's something about Penny he can't refuse.

Together, Penny and Kit plan to infiltrate the cult and earn their trust. Kit knows how to blend in and play their games, but Penny isn’t like him; he’s always been too soft. Too quick to trust. Worse, Penny draws attention from people who would gladly hurt him just to punish Kit.

The deeper they go, the more Kit unravels. Penny isn’t just a liability—he’s a temptation. A reminder of everything Kit thought he didn’t deserve. And in a place where weakness is punished and love is weaponized, wanting each other could cost them both everything.

Content Warnings:

- PTSD/flashbacks of traumatic events
- Mild homophobia (not by a main character)

"This is but a herald of the trials that await."

Deep inside the Bone Men cult, Penny and Kit have passed the point of turning back. If they want to survive, they have to make it through the remaining six Oaths of initiation, each one more twisted than the last.

Kit works quietly, piecing together a plan to bring the cult down from the inside, but nothing about it is simple. Not with Penny's brother watching their every move, doing everything he can to make sure they fail.

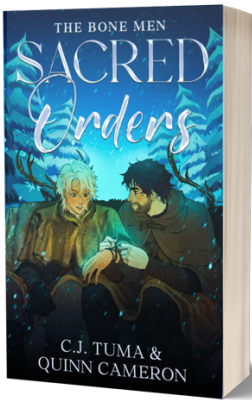

With danger now lurking around every corner, Penny can't help but wonder if finishing what they started is worth the cost. If they keep going, they might not make it out whole.

They may not make it out at all.

Content Warnings:

- PTSD/flashbacks of traumatic events

“Living bodies are fragile, temporary things.”

Shaken by a brush with death, Kit Mosel and Penny Oliver push forward with their initiation rites. Dark trials edge them closer to uncovering the truth behind the god the cult worships, and what they learn bolsters their resolve to dismantle the Bone Men.

But they can't do it alone.

To stand a chance, Kit and Penny must risk everything by reaching out to others inside the cult, unsure who they can trust, or if betrayal is already brewing. Any misstep could mean exposure. And exposure means death.

Meanwhile, life in Ashpoint feels increasingly hostile as their enemies work to drive Kit and Penny away. With danger closing in and secrets pressing at every seam, their hard-won connection—and growing romance—may not survive what comes next.

Content Warnings:

- PTSD/flashbacks of traumatic events
- Mentions of dismemberment
- Mild homophobia (not by a main character)
- Fire and arson
- Anxiety and anxiety attacks (on page, POV character)

“Judgment must be passed, and balance restored.”

After a small taste of freedom from the Bone Men, Kit Mosel and Penny Oliver try to settle back into their life in Ashpoint. Though the resistance has grown in their absence, tensions within the cult are high, and their deceptions begin to unravel around them.

When an unexpected loss paints a target on their backs, Kit and Penny struggle to balance their romance with the demands of their mission. Attempts to protect their allies from the fallout put the two of them at odds, and as they each encounter lines they are unwilling to cross, it becomes clear there may be only one way out.

The price is high, but they’ve long since passed the point of no return. To keep the world from plunging into despair, Kit and Penny must gamble their future, their love, and their lives to finally dispel the shadows of a lifetime of darkness.
