How to Create Behavior Charts that Work!

*Come join us at the farm for a fun and fresh approach to continuing education.
No riding involved. No prior horse knowledge required.*

Workshop Description and Information: Parent training is currently the only evidenced-based treatment for childhood behavior problems. Therapists can be a powerful source of positive family outcomes when they understand how to implement behavior therapy using effective behavior charts. Participants will be able with the help of our equine friends to learn the core part of parent training, the behavior chart. Behavior charts must be created and executed in a particular way to achieve behavioral changes. Participants will learn how to target unwanted behaviors, create positive alternatives, and properly reward.

The day will include presentations, discussions, group problem solving with case scenarios.

Location of Workshop: 2061 Bethel Road, NE
Conyers, GA 30012
Phone – 770-776-8446
