

Data Solutions for Every Mission

Your partner from basecamp to summit.

Mission Success

We build, develop, and maintain strong and innovative solutions to further your mission.

Our team has experience partnering on multiple high-visibility contracts with significantly increasing requirements.

Demand has spurred exponential company growth, with revenue doubling every year for three years. This has led to exceptional employee retention, selective recruitment, and the opportunity to explore new business.

Executive Leadership

Our executive leadership double as skilled, highly impactful on-site mission managers and supervisors:

Victor Sanchez Jr.

Founder/President & Chief Executive Officer
301.842.7360 | victor.sanchez@veraxsg.com

Paul Nunley

908.892.4331 | paul.nunely@veraxsg.com

Crystal Boyland

Director for Talent & Acquisitions
901.237.0761 | crystal.boyland@veraxsg.com

Services & Expertise

Starting with the foundations, we build data collection tools and work our way up. We ensure that our clients have all the tools and skills they need to arrive at their peak goals without delay or difficulty.

Our highly motivated team of multidisciplinary professionals provide services and expertise including, but not limited to, the following:

Data and Software Engineering

System Architecture

Quality Assurance

Program Management

Training Implementation

Data Exploitation

With a variety of commercial and government experience and numerous additional proficiencies, our team is diverse, flexible, and unique to fit any mission need.

VSG professionals average **over 18 years** of experience in their fields. VSG particularly thrives in training and up-skilling employees, clients, and partners to meet the needs of an ever changing world and data environment.

VSG places a strong emphasis on security and ethics. We recognize and enforce standards held by all clients and partners, in addition to our own policies.
