## **IMPORTANT MESSAGE TO EVERYONE ATTENDING FREEDOM SOCIAL SKILLS CLASSES**

Freedom SS has taken measures to minimise the risk of COVID-19 within our class facilities. As always, the health and well-being of our children and our staff remains our number one priority.

FSS is also closely monitoring Australian Government Dept of Health updates to comply with the updates and fluidity of the situation. We have also implemented cleaning protocols as a preventative measure and invested in additional hand sanitisers.

**At staff meetings and handovers, staff are being reminded of good infection control practices, the importance of handwashing and they have been asked to advise us immediately if they feel unwell and to avoid contact with others.**

How can you assist?

We ask that all parents do a temperature check on your child prior to attending classes. If your temperature is higher than 37.5 it means you have a low grade fever you should not come to classes.

You should not attend class if you have been in contact with people who are suspected of having the Flu or COVID-19.

In addition to this, we require you to notify us if you have learnt that you may have been in contact, or suspected of, having COVID-19.

The precautions we have taken are to protect our clients, staff members and volunteers. We rely on your assistance and help with this important matter.

### **Staff**

We have instructed all FSS staff members that should they be displaying symptoms of COVID-19, or have reason to believe that they or any immediate family members may be infected with COVID-19, to not attend Freedom Social Skills classes before seeking and following medical advice.
