Free artwork to download and print your own cards to hand to people you come in contact with during the day. Waitresses, drive thru, car wash, school classmates, any gatherings where people are at. This card is to make them aware of policies of the different candidates, as well as give you talking points. Hopefully it gives them a reason to think about the topics, and common sense kicks in...

You can download the art work and print with any printer onto Avery 5371 or Staples business cards that have 10 cards per sheet. Print them 2-sided and you have what you need... If you would like us to provide you with them, please drop us a note from our contact page.
