SUMMARY OF ARCHITECTURAL CAREER

As an Senior Architectural Designer & Project Manager, Boian has specialized experience working on a full spectrum of projects, ranging from institutional, retail, entertainment, commercial, sports facilities, to mixed-use residential. With over 10 years of industry experience, his strong design skills have been an asset to his ability to compliment and deliver award-winning projects, including his contributions to the celebrated University of British Columbia AMS Student Nest, the University of Windsor Centre for Engineering Innovation, the Whitby Abilities Centre, and the Arab Centre for Research and Policy Studies (Doha Institute) in Doha Qatar.

His ability to work iteratively and collaboratively with his team have always led to the development the best possible design for his clients. Boian brings to his work a passion for designing exceptional spaces for people, supported by an expanding technical knowledge needed to coordinate complex and innovative projects across large and often international consultant teams. He has been able to apply this passion on various projects by combining architecture, sustainability, urban design, landscape, and interior design into a cohesive experience for the individuals that will occupy, and ultimately benefit from a thorough approach towards design.
