

Come To Me My Love

Come to me my love and be my blanket
Wrap your arms around me, hold me tight
Cast your love on me and protect me
Warm me with your closeness.

Come to me my love that I may love on you.
So I might hold you near my heart
That you would know it beats for you.
Come to me my love. Come to me.

Come to me my love and be my pillow
Let my head rest on your warm chest
So your heartbeat will sing me to sleep.
Sing me to sleep my love, to sleep my love.

Come to me my love with the hint of daybreak
Let me be the first to smile into your eyes
On a new day, in a fresh way, in a new place.
Come to me my love and let us start forever.
