

## *If I Had More Time*

Oh, to go back to days that have passed  
If I could do over, just make those days last  
I would slow down, value every minute  
Listen and cherish those close within it.

If I had more time I'd of listened harder  
Let the dust be dust and sit still longer  
Listen to thoughts and dreams and more  
Laugh at the game and forget the score.

If I had more time, I'd slow down a lot  
Money can't replace this empty spot  
What's important is now painfully clear  
Love deeply, closely, treasure every year.
