Angus Ranch

4th Annual Coming 2 Year Old Bull & Bred Heifer Sale

FRIDAY, DECEMBER 20, 2024

1:00 PM MT

FAITH LIVESTOCK AUCTION • FAITH, SD

Dear Cattle Ranchers,

Our family appreciates your interest in our cattle program, and would like to invite you to join us on sale day. Please, come early to look at the bulls and heifers, and have lunch with us before the sale.

There are a lot of tools available to help with the process of choosing the right sires for each of our cattle herds. We hope the testing that we have done in our herd with Angus GS will help you with that process. Angus GS verifies the parentage, so you know exactly who the parents are, and how that bull should perform in the future. If we can help you in your decision making, we would be happy to visit with you and answer any questions you may have.

As we have always said - we strive for balanced traits, but, maternal traits are our top priority. Our cows are moderate framed, easy fleshing, have adequate milk, good disposition, and breed back every year. We do NOT offer second chances. We believe great cows are the heart of our program, and are using the most advanced technology available to make the best decisions we can.

The bulls were developed on a high roughage ration last winter then turned out to pasture in May.

The bulls will be fertility tested and scrotal measured by Scoggins Vet Service in early December. This information will be available on our website, PineCreekAngusRanch.com, Facebook page, and on the sale day supplement sheet.

The bulls were poured this Fall with Clean-up II.

The heifers were A.I.ed May 2nd and the clean-up bulls were turned out May 16th. They were ultra sound tested August 28th, and will be rechecked before the sale. This fall they were given Cattlemaster Gold FP5 L5 and poured with Clean-Up II. They had their first dose of ScourGuard 4KC in November.

Cattle can be viewed here at the ranch until December 17 and in Faith the afternoon of the 18 through sale day.

Thankful for our many Blessings,

Lyle & Miriam

First Breeding Season Guarantee

All bulls in this sale have passed a breeding soundness exam by Scoggin Vet Service. Bulls selling for \$3500.00 or more are guaranteed only against breeding injury during the First Breeding Season. Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

American Angus Association \$Value Indexes

Maternal Weaned Calf Value (\$M)

is an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Beef Value (\$B)

is an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C)

is an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.
