

PINE CREEK

Angus Ranch

5th Annual Coming 2 Year Old Bull & Bred Heifer Sale

FRIDAY, DECEMBER 19, 2025

1:00 PM MT

FAITH LIVESTOCK AUCTION • FAITH, SD

Welcome to our 2025 Fall Production Sale,

It is an exciting time to be in the livestock business, and we thank you for your interest in our cattle.

Probably, never before could you sell three cull cows, and replace them with a bred heifer, or sell an old weigh-up bull for about \$5000, or sell four steer calves for the price of a bull.

We DNA test every calf at branding time with Angus GS, to verify the parentage and get an accurate EPD for each calf. You can't assume that the combination of the dam's and sire's EPDs will tell you what that calf's EPD will be. The DNA will give you the genomic percent rank and EPDs.

Our purchase of Basin Keystone 2021 in the Spring of 2023 is having a big influence in our herd and across the nation as well as in Australia and New Zealand. Keystone is a moderate-framed, calving-ease bull with outstanding performance and phenotype. He is deep bodied and correct in his structure.

We will be giving away a registered Keystone heifer calf at the end of the sale – must be signed up and present to win.

The bulls were developed on a high roughage ration last winter, and then turned out to pasture in May through mid-October. They are not over fed.

The bulls will be fertility tested and scrotal measured by Scoggin Vet Service on December 5th. This information will be available on our website PineCreekAngusRanch.com, Facebook page, and on the sale day supplement sheet. The bulls were poured this fall with Clean-Up II.

The heifers were AI'd April 24, and the clean-up bulls were turned in on May 8. They were ultrasound tested July 27, and will be rechecked on December 5. The heifers will be sorted into calving groups. They were given Cattlemaster Gold FP5 L5 and were poured with Clean-Up II. They had their first dose of ScourGuard 4KC on November 13th.

Cattle can be viewed here at the ranch until December 17, and in Faith the afternoon of the 18 through sale day.

Thankful for our many Blessings,

Lyle & Miriam

The Weiss Family

and

Announcements

Announcements made sale day will take precedence over any printed information.

Retained Interest

Pine Creek Angus Ranch is retaining one third (1/3) revenue sharing semen interest in every bull selling in the sale.

Heifer Information

The heifers will be sorted into groups according to calving dates. We will start by offering **choice** of all the heifers, which will include the transfer of registration papers and free delivery up to 350 miles. After choice, the heifers will sell in tag order as commercial. No delivery will be offered on heifers selling without registration papers.

Heifers were ultra sounded on 7/29/25 and given CattleMaster Gold FP 5 L5. **They will be reprog checked before sale day.**

Delivery

FREE DELIVERY, up to 350 miles on both bulls and bred heifers. We will keep the bulls until we deliver them or deduct \$100 per head from the purchase price if you take them home from the sale barn. Bulls will be delivered as soon as possible following the sale.

First Breeding Season Guarantee

All bulls in this sale have passed a breeding soundness exam by Scoggin Vet Service. Bulls selling for \$5000.00 or more are guaranteed only against breeding injury during the First Breeding Season. Breeding Season is defined as the 60-day period, following the first turn out of the bull. If a replacement bull is available, he will be provided or if the buyer prefers, credit towards one bull will be given for the next year's sale, less salvage value of the injured bull. All injured bulls must be diagnosed by a licensed veterinarian. We must be notified should injury occur and **BEFORE** the bull is sold for salvage. A copy of the salvage receipt must be sent to us. All claims must be made by September 1, 2026.

Pine Creek Angus Ranch will not be responsible for more than the purchase price of the bull. Replacement bulls are not covered by this guarantee. This is not mortality insurance.

Insurance

Mortality and Injury Insurance can be purchased through Martin-Trudeau that will cover the bull from sale day for 1 full year. Martin Trudeau Office.....605-996-3106

Basin True Balance 4002

True Balance was purchased by Pine Creek Angus Ranch at the 2025 Basin Angus Sale. He is one of the most complete and balanced bulls ever produced in the Basin program. He is currently at World West Sire Services in Joliet, MT being collected, and his semen is available through both Origin Beef and ABS Global.

Dollar value indexes, or \$Values, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

American Angus Association \$Value Indexes

Maternal Weaned Calf Value (\$M)

is an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Beef Value (\$B)

is an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C)

is an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.
