CAPABILITY STATEMENT

9AVU5 | CSZERZJYHA43

Certified. Trusted. Ready

HUBZone | WOSB | EDWOSB | ISO 9001, 14001, 27001

SDZ Enterprise supports federal agencies with consulting solutions that align with EPA regulations, NIST cybersecurity standards, and infrastructure modernization efforts, helping agencies streamline compliance and build operational resilience.

Our Past Performance

NASA HQ Environmental Program Support - Strategic consulting, EMS, sustainability, and NEPA (subcontractor)

MWDOC - Multi-jurisdictional AWIA Risk & Resilience Assessments and ERP (subcontractor)

Herndon Solutions Group - SharePoint development, modernization strategy, business development

City of Henderson - Information technology staffing services, project management (subcontractor)

Why Choose Us

Deep Industry Experience

30+ years of specialized expertise in water, environmental, and infrastructure systems trusted by public and private clients.

Consulting Expertise

Certified experts delivering tailored solutions through strategic planning and process improvement.

Speed to Impact

Our agile, results-driven approach ensures early wins and sustainable improvements, reducing downtime and accelerating operational gains across your organization.

Our Services

Environmental Consulting

- Water & wastewater compliance
- Emergency planning & security
- Conservation & sustainability
- Utility management support

Technology & Cybersecurity

- SharePoint development
- Business analysis
- Data governance & data management
- SCADA/ICS security assessments

Asset & Program Management

- CMMS Implementations
- Lifecycle & reliability strategies
- Inventory management
- Performance optimization

Business Support

- PMP-certified leadership
- Organizational design
- Business process optimization
- Workforce development

PAST PERFORMANCE

9AVU5 | CSZERZJYHA43

Performance.Precision.Partnership

2024 – NASA Environmental & Medical Contract (NEMCON) PWS 6

Subcontractor for HSG LLC

Administrative and Management Support (541611), Environmental Consulting Services (541620)

Under the NASA NEMCON PWS 6 scope, SDZ Enterprise provided high-level strategic and administrative support to NASA Headquarters' Environmental Management Division (EMD). Services included program management across environmental domains such as NEPA, EMS, sustainability, energy, restoration, and compliance, alongside natural and cultural resource management. SDZ also led initiatives in workforce planning, SharePoint modernization, and Kaizen facilitation to optimize EMD operations. Deliverables included documentation, project tracking, and SME consultation, supported by limited travel. This performance (March–September 2024) advanced EMD's operational efficiency and environmental mission goals.

2024 – NASA Environmental & Medical Contract (NEMCON) PWS 7

Subcontractor for HSG LLC

Administrative and Management Support (541611), Environmental Consulting Services (541620)

Under NASA's NEMCON PWS 7, SDZ Enterprise supported the development of a SharePoint collaboration platform for the \$25M Occupational Health initiatives at Goddard Space Flight Center (GSFC). The team led efforts to gather business requirements, define operational rules, and standardize project setup to ensure consistent implementation. SDZ designed the site architecture, enabled secure external-access folders, and performed firewall testing to ensure system reliability and compliance. This work enhanced internal and external coordination across NASA's multi-year health programs.

2024 – MWDOC Multi-jurisdictional HMP and AWIA Components

Subcontractor for HSG LLC

Administrative and Management Support (541611), Environmental Consulting Services (541620)

SDZ Enterprise LLC partnered with Herndon Solutions Group to support the Municipal Water District of Orange County (MWDOC) in updating its Multi-Jurisdictional Hazard Mitigation Plan (HMP) and fulfilling key components of the America's Water Infrastructure Act (AWIA) of 2018. The team conducted Risk and Resilience Assessments (RRAs) and developed Emergency Response Plans (ERPs) for 30 water and wastewater agencies. Scope of work included project initiation, data collection, risk mapping, stakeholder engagement, and the facilitation of public workshops. This effort strengthened infrastructure resilience and streamlined compliance with federal hazard mitigation and emergency preparedness standards.

2024 – City of Henderson AWIA Components (RRA and ERP)

Subcontractor for HSG LLC

Administrative and Management Support (541611), Environmental Consulting Services (541620)

SDZ Enterprise LLC partnered with Herndon Solutions Group to support the City of Henderson in fulfilling the Risk and Resilience Assessment (RRA) and Emergency Response Plan (ERP) requirements of the America's Water Infrastructure Act (AWIA) of 2018. The project scope included initiating activities, collecting system data, conducting risk mapping, facilitating stakeholder workshops, and generating final compliance reports. SDZ's role was focused on enhancing infrastructure preparedness and hazard mitigation capabilities. This engagement ensured the City met federal compliance standards while strengthening overall water system resilience.

2024 – City of Henderson IT Staffing Services

Subcontractor for eNcloud Services LLC

Administrative and Management Support (541611), Custom Computer Programming Service (541511), Other Computer Related Services (541519), Computer Systems Design Services (541512)

SDZ Enterprise LLC provides on-demand Information Technology staffing services to the City of Henderson, supporting both short-term and long-term needs. Services are delivered on an hourly basis and cover a range of technical roles to fill temporary gaps or support specialized initiatives. This flexible model allows the City to scale its IT workforce quickly and efficiently while maintaining continuity in operations. SDZ's ability to deliver qualified professionals ensures timely, cost-effective support for evolving technology requirements.
