 NAICS: 541519 | 541512 | 541511 | 541611

Transforming Data. Enabling Decisions. Delivering Results.

SDZ Enterprise delivers information technology consulting services that bridge business needs with data-driven solutions. We support federal agencies, utilities, and public-sector organizations with scalable, compliant, and user-centric IT strategies that improve performance, strengthen governance, and enable informed decision-making.

Past Performance

NASA Headquarters

SharePoint Modernization & Collaboration Enhancement
 Modernized legacy SharePoint environments to improve usability, collaboration, and operational efficiency. (Subcontractor)

Municipal Water District of Orange County.

Secure Microsoft Teams Collaboration Environment
 Designed and implemented Microsoft Teams environments with specialized security permissions to support project-based collaboration. (Subcontractor)

Herndon Solutions Group

SharePoint Modernization & Support Services
 Provided ongoing SharePoint modernization and support services, including platform optimization, workflow automation, and user support.

City of Henderson

On-Call Technology Services (PM, BA & Technical Support)
 Deliver on-call technology services including project management, business analysis, and technical support. (Subcontractor)

Why Clients Choose SDZ

Better Decisions Through Data

Deliver reliable, actionable information.

Secure & Compliant Systems

Align with federal and industry requirements.

Increase Efficiency & Automation

Streamline workflows and reducing manual effort.

Adopted, Sustainable Solutions

Ensure systems are implemented and used long-term.

Supporting Mission Success Through Data, Technology, and Execution

Core Competencies

Business Analysis & Strategic Planning

Aligning business, data, & technology to mission outcomes
 Analyzing & documenting requirements for solution delivery
 Managing change, configuration, & solution validation
 Developing technology strategies, roadmaps, & priorities

Data Governance & Decision Support

Establish data governance, stewardship, & ownership frameworks
 Developing data policies, standards, & management procedures
 Improving data quality, metadata, & lifecycle management
 Delivering data visualization & decision-support tools

Compliance & Regulatory Support

Implementing data security strategies & access controls
 Developing governance-aligned policies & procedures
 Supporting secure environments with role-based access
 Aligning systems with federal frameworks (e.g., NIST, CMMC)

Implementation & Operational Delivery

Designing collaboration & knowledge management platforms
 Automating workflows & business processes for efficiency
 Integrating collaboration platforms with BI & reporting tools
 Delivering training, adoption, and knowledge transfer

Differentiators

- Business-First Approach**
Focus on outcomes, not just technology.
- On-Demand, Scalable Expertise**
Flexible PM, BA, and technical support.
- Public Sector Experience**
Proven delivery in federal and municipal environments.
- Execution + Adoption Focused**
Solutions that are implemented and sustained.

Value to Prime Contractors

- IT SMEs Across Data, Business Analysis & Collaboration**
- Proposal Support & Requirements Alignment**
- Execution-Driven Delivery**
- Integrate Data, Security & Governance**
