## WE NEED YOU!

### **PLEASE PAY YOUR \$45 ANNUAL DUES**

Our most significant expense is the maintenance of the median/esplanade, which currently costs us \$3,000 annually. However, our current funds will only sustain this service until June. In the event of depletion, we'll be left with no alternative but to relinquish the property to the city. Should this occur, the city's maintenance efforts will likely diminish, potentially resulting in infrequent upkeep, leading to overgrown grass and weeds. Such neglect could have adverse effects on our property values.
