

The Microbe's Best Friend!
GREAT A®

TECHNICAL DATA SHEET

WHAT IS GREAT A LIQUID SOIL AMENDMENT?

BetterFedFood's Great A Liquid Soil Amendment™ is an organic and proprietary, liquid that is produced from the cultivation of *Chlorella microalgae*. A+ enhanced contains bio-active compounds, phyto-nutrients, and metabolites that are expressed during the growth process of the microalgae.

HOW DOES GREAT A WORK?

The metabolites in A+ function as signalers to microbial communities in the soil causing changes in their diversity and abundance. Research shows that A+ Liquid Soil Amendment specifically activates *Bacillus sp.*, *Pseudomonas Fluorescens*, Mycorrhizae, *Trichoderma sp.*, PGPR Bacteria, and *Azospirillum*. These microbial communities help make key nutrients available to the crop

WHAT ARE THE KEY BENEFITS OF GREAT A?

- Enriched nutrient and water uptake
- Enhanced plant and root growth
- Induced microbial growth associated with healthier crops
- Increased environmental stress tolerance
- Improved yield

HOW TO USE GREAT A.

Application of Great A Liquid Soil Amendment will vary based on crop and geography. Please contact us to discuss your specific situation. General directions for application is

A+ is safe for tank mixing with other agricultural inputs.

HOW TO STORE GREAT A

- Keep out of direct sunlight
- Do not freeze
- Product remains effective for 12 months from date of manufacture when stored properly.
- **In Furrow 1 quart acre**
- **Before planting ½ gallon**
