

DuraSlic[®]

VEHICLE PROTECTION

DuraSlic Products come directly from Our Scientists.

Working with DuraSlic means working with the most knowledgeable ceramic coating chemists in the world; not re-formulators, re-packagers, or re-branders of every day products.

DuraSlic Ceramic Coatings are powered by award-winning NanoSlic chemistry.

DuraSlic coatings offer the most hydrophobic, oleophobic, robust, and long-lasting ceramic protection available. But how long will it last?

On DuraSlic offers comprehensive real-world data to support our performance claims. Don't be fooled all ceramic coatings are not the same.

We do the research, we do the tests, and we provide the data.

Why? Our customer's surface matters.
