*On 8/9/20, NYC passed Local Law 31 of 2020, requiring XRF lead-based paint inspections in all buidings built prior to 1960 (and in some instances those built before 1/1/78) and having three or more residential units. These inspections must be completed by US EPA-Certified third-party Inspectors or Risk Assesors and must be completed prior to 8/9/25 and prior to 8/9/21 in the instances where there is a child under six residing (or visiting for 10+ hrs per week) in the unit.
