TO: Whom it may concern

We have the Greek restaurant Alpha Gyro Grill in Gainesville, Georgia. It is an old building with its usual problems of rainwater leaking from the roof. Repeated attempts to solve the problem failed. Then American Southern Roofing Company took the project, with an outstanding 10-year warranty on the job, which means they will "own" the roof for some time.

If you have a roofing project that needs to be done in a professional manner with amazing customer service, with no down time to your business, then look no further.

American Southern Roofing has been nothing, but an absolute pleasure to do business with. The product, a single white acrylic coat covering the 4,500 sq. feet of our roof, speaks for itself with all our leaks finally coming to an end. Not to mention the real selling point of the rates they offer combined with the attractive warranty.

The best of our experience came now in the middle of the summer, when the inside temperature in the building is considerably lower, resulting in lower utility bills.

Highly recommend them all the way around.
