PURPOSE:

Any threatening, menacing, abusive, or disorderly conduct toward staff is against the law and will not be tolerated. American Horse School is committed to providing a safe working environment for all employees, volunteers, and community members that is free from harassment, intimidation, or bullying.

Work place bullying creates an intimidating or threatening environment and has the effect significantly impacting an employee's ability to perform the duties of their position at an expected level of performance.

DEFINITION:

Work place bullying is defined as the act of one or more individuals intimidating one or more persons negatively and over time through verbal, physical, mental, cyber, or written interactions and those persons have difficulty defending themselves. Bullying may take many forms and can occur in any setting. It can create insecure and unwarranted anxiety that will affect the professional work environment.

Examples of work place bullying include, but are not limited to:

- Threats, humiliation, or intimidating
- Work interference or sabotage that prevents work from getting done
- Verbal abuse
- Harassment on social media at any time
- Cannot use School Board member names as intimidation or threat to any staff member.

Harassment is defined as threatening, insulting, and dehumanizing gestures, use of technology, computer software or written, verbal or physical conduct directed against an employee that places an employee in reasonable fear of harm to their person or damage to their property or position. Harassment has the effect of substantially interfering with an employee's work performance. It can also have the effect of negatively impacting an employee's emotional or mental well-being and substantially disrupting the orderly operation of the school.

No retaliation of any kind is permitted in connection with an individual having made a bullying/harassment complaint and if it occurs it shall be deemed an additional act of bullying/harassment.

Disciplinary consequence for a person who commits bullying/harassment will follow the personnel discipline policy, which may range from a documented warning up to suspension or termination of employment with American Horse School.

3.58 EMPLOYEE FRATERNIZATION POLICY

The School strongly believes that a work environment where employees maintain clear boundaries between employee personal and business interactions is necessary for effective business operations. Although this policy does not prohibit the development of friendships or romantic relationships between co-workers, it does establish standards of conduct to be followed by employees who have a personal relationship during working hours and within the working environment.

Individuals in supervisory or managerial roles, and those with authority over others' terms and conditions of employment, are subject to more stringent requirements under this policy due to their status as role models, their access to sensitive information, and their ability to affect the employment of individuals in subordinate positions.

This policy does not preclude or interfere with the rights of employees protected by the National Labor Relations Act or any other applicable statute concerning the employment relationship.

1. During working time and in working areas, employees are expected to conduct themselves in an appropriate workplace manner that does not interfere with others or with overall productivity.
2. During the nonworking time, such as lunches, breaks, and before and after work periods, employees engaging in personal exchanges in nonwork areas should observe an appropriate workplace manner to avoid offending other workers or putting others in an uncomfortable position.
3. Employees are strictly prohibited from engaging in physical contact that would in any way be deemed inappropriate in the workplace by a reasonable person while anywhere on School premises, whether during working hours or not.
4. Employees who allow personal relationships with co-workers to adversely affect the work environment will be subject to Schools' disciplinary policy, including counseling for minor problems. Failure to change behavior and maintain expected work responsibilities is viewed as a serious disciplinary matter.
5. Employee off-duty conduct is generally regarded as private, as long as such conduct does not create problems within the workplace. An exception to this principle, however, is romantic or sexual relationships between supervisors and subordinates.
6. Any supervisor, manager, executive or other School official in a sensitive or influential

position with School must disclose the existence of a romantic or sexual relationship with another co-worker. Disclosure may be made to the individual's immediate supervisor, Human Resources Department, and Administrator. School will review the circumstances to determine whether any conflict of interest exists.

7. When a conflict-of-interest or potential risk is identified due to a school district official's relationship with a co-worker, Schools will work with the parties involved to consider options for resolving the problem. The initial solution may be to make sure the parties no longer work together on matters where one is able to influence the other or take action for the other. Matters such as hiring, firing, promotions, performance management, compensation decisions, and financial transactions are examples of situations that may require reallocation of duties to avoid any actual or perceived reward or disadvantage. In some cases, other measures may be necessary, such as transfer of one or both parties to other positions or departments. If one or both parties refuse to accept a reasonable solution, such refusal will be deemed a voluntary resignation.
8. Failure to cooperate with Schools to resolve a conflict or problem caused by a romantic or sexual relationship between co-workers or among managers, supervisors or others in positions of authority in a mutually agreeable fashion may be deemed insubordination and result in disciplinary action up to and including termination.
9. The provisions of this policy apply regardless of the sexual orientation of the parties involved.
10. Where doubts exist as to the specific meaning of the terms used above, employees should make judgments based on the overall spirit and intent of this policy.
11. Any concerns about the administration of this policy should be addressed to the Administrator and Human Resources Office.

3.59 NON-FRATERNIZATION

The School Board requires that all school district staff maintain a professional, ethical relationship with district students that is conducive to an effective, safe learning environment; and that staff members act as role models for students at all times, whether on or off school property and both during and outside of school hours.

Inappropriate behavior between employees of the School and students attending the District's schools or availing themselves of services from the District are potentially confusing to the student, disruptive of his/her educational program and may threaten or violate a student's right to personal and physical integrity. In light of these considerations the Board hereby prohibits any District employee from engaging in inappropriate behavior with a student who attends the District's schools or who is a participant in any educational or other program (including, but not limited to, transportation or other services not directly educational in nature) which is operated, staffed, or administered by School's employees, contractors, service providers or volunteers regardless of the student's age or consent. The term "inappropriate behavior" includes but is not limited to flirting, an inappropriate close social relationship, making suggestive comments, dating or attempts to set up a dating situation, requests for sexual activity, inappropriate physical displays of affection, giving inappropriate personal gifts, inappropriate personal communication (see section on Electronic Communications), providing alcohol or drugs, inappropriate touching or engaging in sexual contact or sexual relations.

Electronic Communications

For purposes of this policy, electronic communication shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, tablet or Chromebook devices, or computer network. Electronic communications include, but are not limited to, emails, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational reasons only.

When available, district provided email or other district–provided communication devices shall be used when communicating electronically with students. The use of school-provided email or other district provided communication devices shall be in accordance with school policies and procedures. Use of cell phones shall be limited to informative group communications.

All electronic communications from teachers, coaches, and advisors to classes, teams or club members shall be sent in a single communication to all class, team or club members, except for communications concerning an individual student’s medical or academic privacy matters, in which case the communications will be copied to the school Administrator. In the case of sports teams under the direction of the Athletic Director, communications shall be copied to the Athletic Director.

Adults shall not follow or accept requests from current students and from their parents to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those approved by the district for this purpose, without the prior written approval of the building Administrator.

Exceptions

An emergency situation or a legitimate educational reason may justify deviation from professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

There will be circumstances where personal relationships develop between an adult and a student’s family, e.g. when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many adults are involved in various other roles in the community through school-related civic, religious, athletic, scouting or other organizations and

programs whose participants may include district students. Such community involvements is commendable, and this policy is not intended to interfere with or restrict an adult's ability to serve in those roles. However, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

Any student who believes that he/she has been subjected to inappropriate staff behavior as defined in this policy, as well as students, staff members or third parties who have knowledge of or witness any possible occurrence of inappropriate staff-student relations, shall report the incident to either the school Administrator or the Human Resources Officer for further investigation. In all events such reports shall be forwarded to the designated Human Resources Officer for further investigation. Investigations of allegations of inappropriate staff-student relations shall follow the procedures utilized for complaints of harassment with the school district.

If a student initiates inappropriate behavior, as previously defined, toward a staff member, that staff member shall document the incident and promptly report it to the Administrator or supervisor. Failure to report such student-initiated behavior shall result in disciplinary proceedings.

The School Administrator and/or program supervisor shall be responsible for informing students and staff members of the requirements of this policy, including the duty to report any inappropriate staff-student relations. The School's policy, or a summary thereof, shall be disseminated to all new staff persons and at least annually to staff, students and parents. This topic shall be addressed in the District Code of Conduct and all staff member handbooks.

Any staff member who engages in inappropriate conduct with a student, prohibited by the terms of this policy, shall be subject to appropriate disciplinary proceedings that may culminate in termination of employment in accordance with the law, district policy and regulations, and the applicable collective bargaining agreement. A violation of this policy may also subject the employee to criminal and/or civil sanctions as well as disciplinary proceedings established by relevant authorities.

Prohibition of Retaliation

The School Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of inappropriate staff-student relations. Follow-up inquiries and/or appropriate monitoring shall be made to ensure that the alleged conduct has not resumed and that all those involved in the investigation have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the School.

3.60 INTERNET ACCEPTABLE USE POLICY AGREEMENT

1. American Horse School encourages workers who have been granted Internet access to explore the Internet, but if this exploration is for personal purposes, it must be done on personal, not government time. Likewise, games, news groups, and other non-business activities must be performed on personal, not government time. Use of Office of Indian Education Programs computing resources for these personal purposes is permissible so long as the incremental cost of the usage is negligible, and so long as no Office of Indian Education Programs business activity is preempted by the personal use. Workers must not employ the Internet or other internal information systems in such a way that the productivity of other workers is eroded; examples include chain letters and broadcast charitable solicitations.
2. THE FOLLOWING BEHAVIORS ARE NOT PERMITTED ON THE SCHOOL NETWORK:
 - A. Sharing confidential information on students or other employees.
 - B. Sending or displaying offensive messages or pictures.
 - C. Accessing email for unacceptable use/accessing chat rooms for personal use.
 - D. Assisting a campaign for election of any person to any office or for the promotion or opposition to any ballot proposition.
 - E. Using obscene language.
 - F. Harassing, insulting or attacking others.
 - G. Engaging in practices that threaten the network (e.g. loading files that may introduce a virus)
 - H. Violating copyright laws.
 - I. Uploading unlicensed software programs.
 - J. Using others' passwords.
 - K. Trespassing in others' folders, documents and files.
 - L. Damaging computers, computer systems or computer networks.
 - M. Intentionally wasting limited resources.
 - N. Employing the network for commercial purposes.
 - O. Individual users of the network are responsible for their behavior and communications over the network. It is presumed that users will comply with school standards and will honor this agreement. Beyond the clarification of such standards, the school is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.
 - P. The use of the Internet and electronic mail is a privilege and not a right and inappropriate use will result in cancellation of these privileges.
3. MICROCOMPUTER SECURITY POLICY
 - A. Business Use Only: Office of Indian Education Programs computer and communication systems must be used only for business purposes. Incidental personal use is permissible if the use:
 - B. Does not consume more than a trivial amount of resources that could otherwise be used for business purposes.
 - C. Does not interfere with worker productivity.
 - D. Does not preempt any business activity.
 - E. Permissible incidental use of a microcomputer would, for example, involve responding to an electronic mail message about a luncheon. Separately, examples of personal use

include game playing, writing a resume, and surfing the Internet for entertainment purposes.

- F. Configuration Control:
- G. Changes to Application Software: American Horse School through the Office of Indian Education Programs has a standard list of permissible software packages that users can run on their microcomputers. Workers must not install other software packages on microcomputers without obtaining advance written permission from the School "IT" Team. Additionally, staff must not permit automatic software installation routines to be run on School microcomputers unless these routines have first been approved by the "IT" Team. Unless separate arrangements are made with the "IT" Team, upgrades to authorized software will be downloaded to microcomputers automatically. Auto-discovery license management software is used to remotely determine which software packages are resident on worker microcomputer hard disks. Unapproved software may be removed without advance notice to the involved worker.
- H. Changes to Operating System Configurations: On American Horse School Programs-supplied computer hardware, workers must not change operating system configurations, upgrade existing operating systems, or install new operating systems. If such changes are required, they will be performed by "IT" Team personnel.
- I. Changes to Hardware: Computer equipment supplied by American Horse School Programs must not be altered or added to in any way (e.g., upgraded processor, expanded memory, or extra circuit boards) without the prior knowledge of and authorization from the "IT" Team. Auto-discovery software is used to determine what equipment is installed in each microcomputer, so unauthorized hardware reconfigurations are detected automatically.
- J. Blocking Sites: American Horse School filters routinely prevent users from connecting with certain non-business web sites. Workers using American Horse School computers (on or off campus) who discover they have connected with a web site that contains sexually explicit, racist, violent, or other potentially offensive material must immediately disconnect from that site. The ability to connect with a specific web site does not in itself imply that users of American Horse School systems are permitted to visit that site.
- K. Virus Program Installed: All microcomputers must continuously run the current version of virus detection package approved by the BIA Management Information Systems Division. The current version of this virus package will be automatically downloaded to each microcomputer when the machine is connected to American Horse School's internal network. Workers must not abort this download process.
- L. Externally supplied floppy disks, CD-ROMs, and other removable storage media must not be used unless they have first been checked for viruses.
- M. Externally supplied computer-readable files (software programs, databases, word processing documents, spreadsheets, etc.) must be decompressed prior to being subjected to an approved virus checking process. If the files have been encrypted, they must be decrypted before running a virus checking program. Many virus checking programs cannot detect viruses in compressed or encrypted files.
- N. Eradicating Viruses: Because viruses can be complex and sophisticated, workers must not attempt to eradicate them without expert assistance. If workers suspect infection by a virus, they must immediately stop using the involved computer, disconnect from all networks, and call the "IT" department and wait for assistance.

- O. Browser User Authentication: Users must not save fixed passwords in their web browsers or electronic mail clients because this may allow anybody who has physical access to their workstations to both access the Internet with their identities, as well as read and send their electronic mail. Instead, these fixed passwords must be provided each time that a browser or electronic mail client is invoked. Similarly, American Horse School computer users must refuse all offers by software to place a cookie on their computer so that they can automatically log-in the next time that they visit a particular Internet site.
 - P. Computer Password and Access Limitations: American Horse School Staff do not have the authority to set their own bios settings...you do not have admin rights to any computer. Additionally, you do not have administrative rights to the computer and are limited to privileges based on this fact. Please address administrative issues, concerns, and needs to the "IT" Department.
4. PHYSICAL SECURITY:
- A. Equipment Theft: To prevent theft, all office desktop microcomputers (with the exception of portables) must be physically secured inside the classroom or office by locking the door(s) when you are not present. All microcomputer equipment must be marked with an identification tag which clearly indicates it is American Horse School or BIA property. Periodic physical inventories are used to track the movement of microcomputers and related computer equipment.
 - B. Laptop Computer Security: If you have been assigned or issued a laptop computer (other than for a computer resource center), you must be very security conscious to prevent loss or theft. Practice the following measures:
 - C. Do not leave a laptop computer unattended when you leave your classroom or office. Ensure someone is watching it for you and if not, lock your classroom or office until you return.
 - D. Similarly, you must either lock your laptop in your classroom closet or office closet in the evening or take the system home with you if you have a computer pass allowing you to take it home.
 - E. Do not ever leave your laptop in your car overnight; secure it in your home.
 - F. Keep the laptop in its protective case when not in use.
 - G. Portable computers must always be secured with locking cables, placed in locking cabinets, or secured via other locking systems when in the office but not in use.
 - H. If you do not have a proper method to secure your laptop, you must make the American Horse School "IT" Department aware of this situation.
 - I. Custodians for Equipment: The primary user of a microcomputer (or classroom teacher) is considered a custodian for the equipment. If the equipment has been damaged, lost, stolen, borrowed, or is otherwise unavailable for normal business activities, a custodian must promptly inform the "IT" Team immediately. With the exception of portable machines, microcomputer equipment must not be moved or relocated without the knowledge and approval of the "IT" Team.
 - J. Use of Personal Equipment: Workers must not bring their own computers, computer peripherals, or computer software into American Horse School facilities without prior written authorization from the "IT" Team. Likewise, workers must not use their own microcomputers for production of American Horse School business unless these systems have been previously evaluated and approved by the "IT" Team.
 - K. Property Pass: Microcomputers, portable computers, typewriters, and related information

systems equipment must not leave American Horse School offices and/or classrooms unless accompanied by a Property Pass or Hand Receipt signed by the “IT” Team or designated property manager.

- L. Locking Sensitive Information: When not being used by authorized workers, or when not clearly visible in an area where authorized persons are working, all hardcopy sensitive information must be locked in file cabinets, desks, safes, or other furniture. Likewise, when not being used, or when not in a clearly visible and attended area, all computer storage media (floppy disks, tapes, CD-ROMs, etc.) containing sensitive information must be locked in similar enclosures.
- 5. American Horse School User Agreement
 - 6. As a user of the American Horse School computer network and their Technology property, I hereby agree to comply with the above stated rules and honor all laws and restrictions.

3.62 SOCIAL MEDIA USE POLICY

1. **Purpose.** The School recognizes the value of teacher inquiry, investigation and research, and innovation using new technology tools to enhance the learning experience. The school also recognizes its obligation to teach and ensure responsible and safe use of these technologies.

This policy addresses employees' use of publicly available social media networks including personal Web sites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, Facebook, Twitter, Snap, TikTok and any other social media.

The School takes no position on employees' decision to participate in the use of social media networks for personal use on personal time. However, use of these media for personal use during school time or on school equipment is prohibited. In addition, employees must avoid posting any information or engaging in communications that violate tribal, state or federal laws, school policies, or which disrupt the educational environment or damage the reputation of the School.

2. **General Statement.** The School recognizes the importance of online social media networks as a communication and e-learning tool. Toward that end, the School may provide password-protected social media tools and School-approved technologies for e-learning and encourages use of School tools for collaboration by employees. However, public social media networks, outside of those sponsored by the School, may not be used for classroom instruction or school-sponsored activities without the prior authorization of the supervising Administrator, or their designee, **and** written parental/guardian consent for student participation on social networks. The School may use these tools and other communication technologies in fulfilling its responsibility for effectively communicating with the general public.

However, employees must avoid posting any information or engaging in communications that violate tribal, state or federal laws, school policies, or which disrupt the educational environment or damage the reputation of the School.

The line between professional and personal relationships is blurred within a social media context. Employees are not permitted to engage with students in a social media context outside of School approved programs, unless the communication is approved by the supervising School Administrator **and** the school has received parental/guardian consent in writing. When employees choose to join or engage with School student families or fellow employees, in a social media context that exists outside those approved by the School, they are expected to maintain their professionalism as School employees. In addition, employees have a responsibility to report inappropriate behavior or activity on these networks, including requirements for mandatory reporting.

3. Definitions.

- A. **Public social media networks** are defined to include Web sites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, and any other social media generally available to the public or consumers and which do not fall within the School's electronic technologies network (e.g. Facebook, Twitter, LinkedIn, Flickr, YouTube, TikTok, Snap, blog sites, etc.).
- B. **School approved password-protected social media tools** are those that fall within the School's electronic technologies network or which the School has approved for educational use. The School has greater authority and responsibility to protect minors from inappropriate content and can limit public access within this limited public forum.

4. Requirements. All employees are expected to serve as positive ambassadors for our school and to remember they are role models to students. Because readers of social media networks may view the employee as a representative of the School, the School requires employees to observe the following rules when referring to the School, its students, programs, activities, employees, volunteers and communities on any social media networks:

- A. An employee's use of any social media network and an employee's postings, displays, or communications on any social media network must comply with tribal, state and federal laws, school policies, and must not disrupt the educational environment or damage the reputation of the School.
- B. Employees may not post on public social media networks during working hours without advance approval by the supervising Administrator.
- C. Employees must be respectful and professional in all communications (by word, image or other means). Employees shall not use obscene, profane or vulgar language on any social media network or engage in communications or conduct that is harassing, threatening, bullying, libelous, or defamatory or that discusses or encourages any illegal activity or the inappropriate use of alcohol, use of illegal drugs, sexual behavior, sexual harassment, or bullying.
- D. Employees shall not use their School e-mail address for communications on public social media networks that have not been approved by the School.
- E. Employees must make clear that any views expressed are the employees' alone and do not reflect the views of the School. Employees may not act as a spokesperson for the School or post comments as a representative of the School, except as authorized by the supervising Administrator, or their designee.
- F. When authorized as a spokesperson for the School, employees must disclose their employment relationship with the School.

- G. Employees may not disclose information on any social media network that is confidential school information, including but not limited to information concerning students and employees, or information that is protected by the Federal Educational Right to Privacy Act (FERPA), or any data privacy laws.
 - H. Employees may not use or post the School logo on any social media network without permission from the supervising Administrator, or their designee.
 - I. Employees may not post images on any social media network of co-workers without the co-workers' consent.
 - J. Employees may not post images of students on any social media network without written guardian consent, except for images of students taken in the public arena, such as at sporting events or fine arts public performances.
 - K. Employees may not post any nonpublic images of the School premises and property, including floor plans.
 - L. The School recognizes that student groups or members of the public may create social media representing students or groups within the School. When employees, including coaches/advisors, choose to join or engage with these social networking groups, they do so as an employee of the School. Employees have responsibility for maintaining appropriate employee-student relationships at all times and have responsibility for addressing inappropriate behavior or activity on these networks. This includes acting to protect the safety of minors online. Any social media group authorized as a student activity site or page or group, must be approved by the supervising Administrator and must be monitored for content by a designated employee, who is responsible for enforcing this Social Media Policy, and any student social media policies.
 - M. Employees who participate in social media networks may decide to include information about their work with the School as part of their personal profile, as it would relate to a typical social conversation. This may include:
 - N. Work information included in a personal profile, to include School name, job title, and job duties.
 - O. Status updates regarding an employee's own job promotion.
 - P. Personal participation in School-sponsored events, including volunteer activities.
 - Q. If an employee lists the School as their place of employment on a social media platform, they must include the statement on that platform profile that "any views expressed on this page are not the views of, nor are they endorsed by, the American Horse School."
5. **Enforcement.** Violation of this Social Media Policy will result in disciplinary action up to and including termination of employment. Employees will be held responsible for the

disclosure, whether purposeful or inadvertent, of confidential or private information, information that violates the privacy rights or other rights of a third party, or the content of anything posted on any social media network.

Anything posted on an employee's Web site or Web log or other Internet content for which the employee is responsible will be subject to all School policies, rules, regulations, and guidelines.

3.63 ASBESTOS NOTIFICATION TO PARENTS, STUDENTS, AND EMPLOYEES

(Required by the *Asbestos-Containing Materials in Schools Rule*, §§ 763.84(c) and 763.93(g) (4)).

Asbestos is a naturally occurring fibrous mineral which, until about 1980, was commonly used in building construction. Asbestos will not burn, is an excellent insulator, has great tensile strength, is resistant to chemicals, is a nonconductor of electricity, and absorbs sound. Examples of *asbestos-containing building material (ACBM)* are vinyl floor tile, sprayed-on acoustical ceiling material, pipe and boiler insulation, and roofing felt. As ACBM deteriorates over time, or is disturbed by maintenance, renovation, or demolition activities, it may become *friable*, i.e., it is capable of being reduced to powder by hand pressure. When ACBM becomes *friable*, asbestos fibers are released into the air. Inhalation of these airborne, microscopic asbestos fibers has been proven to cause such fatal diseases as lung cancer, mesothelioma (cancer of the lining of the lung or abdominal cavity), and asbestosis (scarring of lung tissues). Uncontrolled asbestos contamination in buildings has been, and remains, a significant environmental and public health issue. In 1986, Congress enacted the *Asbestos Hazard Emergency Response Act (AHERA)* to require public and private, secondary and elementary schools to identify ACBM in their school buildings and take appropriate actions to control the release of asbestos fibers. In 1987, the US Environmental Protection Agency finalized a regulatory program which enforces the *AHERA* mandate. These regulations are incorporated within the *Asbestos-Containing Materials in Schools Rule* (40 C.F.R. Part 763, Subpart E).

In compliance with the *Asbestos-Containing Materials in Schools Rule*, the **American Horse School** School/School District had its school building(s) inspected by an asbestos inspector, accredited by the State of **SO. DAK.** During that inspection, areas of suspect ACBM were identified. The type, condition, and location of this ACBM were noted. Samples were taken of some or the entire suspect ACBM. Laboratory analysis of these samples confirmed the presence or absence of ACBM. Suspect ACBM not sampled and analyzed were assumed to contain asbestos. Confirmed and/or assumed ACBM currently remain in certain locations in our school building(s) (*list types and locations of ACBM*).

Upon confirmation of the presence of ACBM, an Asbestos Management Plan was developed for each of the school buildings in the School/School District by an asbestos management planner, accredited by the State of **SO. DAK.**

The Asbestos Management Plan(s) include a description of the measures currently being taken to ensure that the ACBM remaining in our school building(s) is maintained in a condition that will not pose a threat to the health of our students and employees. These Plan(s) describe past response actions taken to abate ACBM, as well as response actions planned for the future, including (*See Asbestos Management Plan(s)*). The Asbestos Management Plan(s) provide information on the periodic monitoring of the condition of ACBM remaining in our school building(s) through triennial re-Inspections, conducted

by accredited asbestos inspectors, and through semiannual surveillance, conducted by trained school maintenance staff.

A copy/copies of the Asbestos Management Plan(s) is/are available for your review in the School/School District administrative office during regular office hours. 8:00- 4:00 pm is the designated Asbestos Program Coordinator for the School/School District. Please direct all inquiries regarding the Asbestos Management Plan(s) to him/her at telephone 605 -455-1209.

4.04 STUDENT EQUIPMENT AND SUPPLIES RECORDS

Teachers, other employee's and students\parents will be responsible for items that have been issued for their use and may be requested to replace damaged or stolen items at their expense.

All school owned equipment and supplies for extra-curricular activities shall be issued at the

beginning of each season and returned at the end of each season. The Athletic Director, coaches, and/or designated staff members will complete and maintain accurate records on all school equipment and supplies.

4.05 STUDENT SAFETY/SUPERVISION

The administration shall develop safety rules including ways in which student safety requires special supervision, protection, and precautions at dismissal and instruction for safety on the way home from school.

Teachers have the primary responsibility for the supervision of students under their care.

Students shall be supervised at all times during the school day and at all school-related activities.

Observation and instruction of safe practices on the part of school personnel and students, particularly in those areas of instruction or extra-curricular activities posing special hazards. (Such as archery, science experiments, etc.) **At no time are students to be left unsupervised.**

Students may not attend any school activities unless accompanied by an adult. If a child is not a direct participant in the school activity, then a parent/guardian must supervise their student at all times.

Students that have been suspended are NOT ALLOWED to participate in and/or attend any school activities during period of suspension.

All exterior doors shall remain locked during school hours per school safety laws. Entrance will be through front door only. If students have already been entered and cleared the proper security process through the primary entrance door, then they are permitted to use other entrances while with school staff.

AHS provides students with a clear backpack for school use. Only students participating in authorized school activities may use an additional non-clear backpack. Backpacks are subject to search and seizure upon entry to the buildings.

4.06 SEARCHES, INTERVIEWS, SEIZURES AND USE OF METAL DETECTORS AND DETECTION WANDS

AHS has determined that the presence of controlled substances on school grounds in the past year and threats from weapons has resulted in a real and serious threat to the health and safety of students and personnel that warrants additional student screening procedures upon entry to the School. To address this threat, the School may conduct searches of student backpacks and bags upon entry to the School grounds and after exiting and re-entering the School building. The School may also install a metal detector and use detection wands at the entry doors to the School for the purpose of preventing the presence of weapons in the School and require all students to clear the metal detector. Any student who does not clear the metal detector or detection wand

screening will be subject to search of their personal property and person prior to entry. Students and parents are notified with the adoption of this Policy that the School may conduct random search upon entry to the building to mitigate the serious and real risk posed by the presence of weapons and/or controlled substances in the school.

The school reserves the right to search students and/or their personal property when a school official, a teacher, or staff member has reasonable suspicion that the student has violated the law or school policy, or poses a threat to the health and safety of students, based upon a reasonable suspicion that drugs, alcohol, or weapons are present in a student's personal property, or there is reasonable suspicion and an immediate need to secure evidence relating to a criminal offense (assault, drug offenses, etc.). If a student is suspected of using their cell phone or electronic device in violation of AHS policy, staff or administrators may reasonably search the contents of the student's phone for evidence of the specific violation. School Officials have the authority to conduct searches of individual student(s) and the student's property. Authority for these searches may be exercised as needed in the interest of safeguarding students, staff, student's property and school property. After a student has entered the School, the student's personal effects including suitcases, bags, storage containers, backpacks, purse, or wallet will not be searched without the student's presence and permission unless there is a clear indication with reasonable suspicion that a law or school regulation have been broken. Reasonable suspicion proves that school/dormitory or officials are not under the more stringent conditions of probable cause as are law enforcement officials. The School Resource Officer is also covered under the conditions of reasonable suspicion when directed by the School Administrator.

In order to maintain a safe and positive learning environment in the school, any student suspected of being intoxicated, under the influence of controlled substances or alcohol, and/or in possession of controlled substances, or contraband may be searched by school officials, including personal items such as bags, purses, etc.. Students who refuse to submit to a search may be referred to appropriate law enforcement authorities if such action is deemed necessary by the administration.

If an actual student search is deemed necessary, as staff members of the same sex as the student and with the same sex witness must do the search. If probable cause exists, "law enforcement will decide if a strip search is required based on law enforcement procedures. Under no circumstances will the school/dormitory officials conduct a strip search on any student".

Staff have the right to examine any personal property left unattended on school grounds and such activity does not constitute a search. This includes search of cell phones and other items including backpacks and purses.

All students have the right to a reasonable degree of privacy, but that privacy does not extend to the endangerment of the health and safety of other students or staff. The School recognizes and will preserve that student's right to privacy and security of personal effects. However, it is the inherent right of the School Officials to inspect each student possessions, backpacks, bags, and other storage space for safety and health hazards and/or a violation of the school/dormitory regulations.

School administrators and teachers have the right to question students regarding their conduct and/or the conduct of others.

School officials may grant law enforcement or school resource official's permission to use drug dogs property owned/or controlled by the AHS.

Backpacks and Handbags: Backpacks are subject to search and seizure upon entry to the buildings, when left unattended, or when there is reasonable suspicion that a law or school regulation has been broken.

4.07 DRUG DETECTION CANINES (DRUG DOGS)

At the discretion of the Administrator, a search of school buildings/grounds by drug detection canines (drug dogs) will be scheduled. The date of the search itself will not be announced. Building Administrator will be present during any scheduled search. A limited number of other staff and faculty (i.e. guidance counselors and drug and alcohol counselors) may be present during the search, at the discretion of the building Administrator.

Also, the handler of the drug dog can limit the number of persons in attendance to ensure the professionalism of the search and to protect potential evidence. Representatives of the media will not be present during the drug dog searches. During the search itself, students will not be present in the immediate areas of the search. The handler of the drug dog will conduct a "pre-search" of the area prior to introducing the drug dog to that area. During a search, the drug dog may alert to a particular personal item, backpacks, bags or vehicle. At the discretion of the Highway Patrol or police officer, the possession, area, and/or storage space in question will be secured and searched immediately by the law enforcement officers. If illegal drugs are found, the South Dakota law enforcement officers will seek out and question the user(s) of the possession, area, and/or storage space. When the identity of the person possessing the illegal drugs is established, an arrest will be made immediately. If illegal drugs are not found in the possession, area, and/or storage space to which the drug dog has alerted, the identification of that possession, area, and/or storage space will be disclosed to the school Administrator or their designee. The Administration and/or designee will contact the parents of the identified student to make the parent aware that the drug dog did alert on their student's property. This will be done in a confidential manner, not to call attention to the student.

4.08 INTERROGATIONS AND INVESTIGATIONS BY LAW ENFORCEMENT

Law Enforcement may be called to the school at the request of the respective Administrator, or Administrator designee, or the School Safety and Security Officer. Law enforcement shall contact the Administrator first if they wish to come to school for official business.

Prior to Law Enforcement questioning or detaining a student on a Law Enforcement matter, the respective Administrator shall inform the parent of such request and ask them to attend such interview, unless law enforcement directs the Administrator not to contact the parent or the investigation involves an Abuse and Neglect investigation involving the student, the student's siblings, and their legal guardian. If the parent does not approve of the interview, the interview shall not be held on school grounds. Students cannot be arrested for offenses taking place off

school grounds without a valid arrest warrant presented to the respective Administrator or Administrator designee.

4.09 STUDENT CONSULTATIONS

School administrators and teachers have the right to speak to students regarding their conduct and/or the conduct of others. Except where the alleged action would constitute a criminal offense, the right against self-incrimination does not exist.

Every effort shall be made to notify Parent(s) or Legal Guardian(s) of any pending searches or student consultations.

4.10 STUDENT INFRACTION INTERVIEWS

School administrators and teachers have the right to interview students regarding their conduct and/or the conduct of others. Except where the alleged action would constitute a criminal offense, the right against self-incrimination does not exist.

Any student who is dropped and does not re-enroll at another school within five (5) school days will be reported to the proper authorities.

4.14 EARLY RELEASE

Individuals requesting early release of student(s) must report to the front office to check out student(s) must fill out a Student Release Form before the student(s) will be taken out of class during the regular school day. 4.34 SPECIAL EDUCATION

The purpose of IDEA (Individuals with Disabilities Education Improvement Act of 2004) is to ensure all children with disabilities receive a FAPE (Free Appropriate Public Education). IDEA is not a “one size fits all” law or program. Instead, each decision made on behalf of a child with a disability must be based on that child's unique needs, whether that be the evaluations performed to determine eligibility and/or the services the child requires, the measurable annual goals, the special education services a child requires, whether the child requires any related services, and when the services will begin, the frequency of the services, the duration of the services, and the

location where the services will be provided, etc. be eligible through the Individual Disabilities Education Improvement Act of 2004 (IDEA 2004). The American Horse School special education department will follow the South Dakota Department of Education and BIE (Bureau of Indian Education) policies put into place.

FAPE (Free Appropriate Public Education)

Students with disabilities have a legal right to FAPE. Services to eligible special education students, ages three to 22, will be provided without charge to the student. This doesn't include incidental fees that are normally charged to all students. Special education services will include preschool, elementary and secondary education and are provided in conformance with the student's IEP (Individual Education Program).

American Horse School provides a continuum of services for students, regardless of the funding source. Where American Horse School is unable to provide all or part of the special education or necessary related services, it will make arrangements through contracts with other public or non-public sources, inter-district agreements or interagency coordination.

Identification & Referral (Child Find)

The purpose of Child Find is to locate, evaluate and identify children with suspected disabilities in need of special education services including those who are not currently receiving special education and related services and who may be eligible for those services. Activities are to reach children who reside within the American Horse School boundaries including preschool-age children.

When American Horse School staff have concerns that a student may have a suspected disability which could result in eligibility for special education services, they will notify the school's special education department who will then schedule a team meeting to discuss options and further screenings and/or evaluation(s) if needed. If the determination is that the child should be evaluated, the team will include information about the recommended areas of evaluation, including the need for further medical evaluation of the student (if needed).

Evaluations

The purpose of the evaluations is to collect information about the student's functional, developmental and academic skills and achievements from a variety of sources, to determine whether a student qualifies for special education and related services, and to develop an IEP (Individualized Education Plan). This includes information provided by the parent. All current evaluation data as well as data previously reviewed by the IEP team must be considered.

IEP (Individualized Education Plan)

The term IEP means a written statement for each student eligible for special education that is developed, reviewed, and revised in a meeting in accordance with Federal expectations, this policy and procedure and best practices. The IEP reflects the implementation of instructional programs and other services for students who are eligible for special education services, based on the evaluation of student needs. An IEP is reviewed annually sometimes more often and every three years the student is re-evaluated to determine if they still qualify for special education services.

Parent Participation in Meetings

The American Horse School encourages parental involvement and sharing of information between the school and parents to support the provision of appropriate services to its students. As used in these procedures, the term “parent” includes biological and adoptive parents, legal guardians, foster parents, persons appointed as surrogate parents and adult students.

Parents (and as appropriate, students) will be provided the opportunity to participate in any meetings with respect to the identification, evaluation, educational placement and provision of a FAPE. American Horse School will take whatever action is necessary to ensure that the parent understands the proceedings of the IEP team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Procedural Safeguards

American Horse School special education department will provide a copy of the procedural safeguards to the parents and adult students at least one time a year. The procedural safeguard handout includes a full explanation of all the procedural safeguards relating to independent educational evaluation, prior written notice, parental consent, access to educational records, discipline procedures for students who are subject to placement in an interim alternative educational setting, requirements for unilateral placement by parents of children in private schools at public expense, state complaint procedures, mediation, the child’s placement during pendency of due process proceedings including requirements of disclosure of evidence, due process hearings, civil actions and attorney’s fees.

Discipline

Students eligible for special education may be disciplined consistent with the disciplinary rules that apply to all students. However, students eligible for special education must not be improperly excluded from school for disciplinary reasons that are related to their disability or related to the failure to implement a student’s IEP. The special education department will take steps to ensure that each teacher who has the student is knowledgeable of the disciplinary rules that differ from the school’s set disciplinary plan.

Special Education Discipline Procedure

In all instances of discipline, the student IEP must continue to be followed.

1. The IEP Team along with the student’s parent/guardian must hold a meeting to determine if the behavior in question is or is not a direct result of the student’s disability.
 - A. If the behavior in question is determined to have been caused by the student disability, then the IEP Team and the parent/guardian will amend the student’s IEP. The IEP team will determine if additional action is needed.
 - B. If the behavior in question is determined to have NOT been caused by the student disability, then the School shall follow the AHS policy manual in regards to appropriate student discipline consequences.
2. If an IEP student is placed in Out-of-School Suspension or In-School Suspension, AHS is still responsible for providing the student with the prerequisite IEP identified services along with the general curriculum until the student completes the Out-of-School Suspension or In-School Suspension process.

3. If an IEP student is dismissed from School, AHS is still responsible for providing the student with the prerequisite IEP identified services along with the general curriculum until the student transfers to another school.
4. If an IEP student is expelled from School, AHS is still responsible for providing the student with the prerequisite IEP identified services along with the general curriculum until the student transfers to another school.
 - A. The prerequisite IEP services and general curriculum can be provided to the student before or after school, at the student's home, or at a neutral location such as a community center, college center, etc.
3. A manifestation determination meeting must be held for a student on an IEP once this student hits their 10th day of being removed from school. Regardless of the time of day the student is sent home, this day shall be counted as day one.

4.35 SECTION 504

Section 504 is the part of the Rehabilitative Act of 1973 that applies to individuals with disabilities. This act protects the civil rights of persons with disabilities. A FAPE (free appropriate public education) is one provided by the elementary or secondary school that includes general or special education and related aides and services that (1) are designed to meet the individual educational needs of an eligible student with a disability as adequately as the needs of an eligible student who is non-disabled are met and (2) are based on adherence to evaluation, placement, and procedural safeguard requirements.

Section 504 of the Rehabilitation Act of 1973 protects students from discrimination based on their disability status. A student is eligible for accommodations under Section 504 if the student has a mental or physical impairment that substantially limits one or more of a student's major life activities that impacts education. "Major Life Activities" include functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working. When a condition does not substantially limit a major life activity that impacts education, the student does not qualify for protection under Section 504.

2. The physician must certify that the student will be unable to attend school for the length of time specified and that he/she is capable of receiving home instruction and shall give an estimate of the probable length of student(s) period of recovery. Should student(s) illness exceed the period, a parent should request that homebound instruction be extended prior to the end.
3. Homebound instruction, although correlated with what the student is missing in the classroom, shall be geared to the student's needs and capabilities during his/her period of recovery. Text books and supporting materials shall be provided by the school.

4.54 HOME SCHOOLING

American Horse School is a federal Oglala Sioux Tribe grant school and therefore does not have a home school program. American Horse School does not provide home school instruction. This is not an educational service of the Office of Indian Education Programs of the BIE grant schools. If a parent chooses home school instruction as the educational option for their student, they must contact either Bennett or Oglala Lakota County Public School districts for assistance. The home school instruction option is part of the curriculum of the South Dakota Public Education and is monitored by the county school districts.

4.55 TESTING PROGRAM

The objectives of the school's testing program are to enable the school to do a more effective job in planning for and educating the children in the school, to secure objective evaluative criteria which are needed for the school's use, and to provide teachers with backup data for grades, reports and counseling.

The testing program includes both informal testing and all commercial standardized testing that is both summative and formative. Informal testing will be done by the classroom teachers and para professionals will be coordinated by the testing coordinator in accordance with the guidelines of the assessment procedures.

The Bureau of Indian Education (BIE) Unified Assessment will be the annual spring assessment for all BIE schools including tribal/grant schools. This assessment will determine grade level standards in accordance with test guidelines.

The school implements both the informal and standardized student testing/assessment program (NWEA MAPS) throughout each school term. Both informal and standardized testing data will be analyzed by the administration to determine the appropriate intervention strategies and curriculum changes required for students in the core subjects of reading and math. Testing scores of students on the assessments used for intervention and curriculum strategies will use the student's number to maintain confidentiality and data gathered will not be individual scores for student improvement but general data for curriculum and intervention changes. This testing not only includes academic achievement testing and other assessment processes to enable the school to more accurately assess the needs and interest of students.

Students are expected to complete all assessments/testing instruments to the best of their ability. Results of the students' individual testing and assessment activities can be reviewed by the student and parent/legal guardian through the Testing Coordinator upon request. Group survey results, student portfolios and informal testing will be reviewed by the AHS staff and school board to make academic curriculum changes. The AHS Board will approve the release of all informal testing results that can be used for curriculum changes to any outside activities to include the BIE Education Line Office, BIE Director of Accountability and Planning, Oglala Sioux Tribe Education Director and Committee, South Dakota Educational Activities and other activities that request testing data for academic analysis.

Parents/legal guardians of students will be notified as to their student's assessment/testing results, along with the issuance of report cards. These results will become part of the individual student's permanent cumulative record.

4.56 HOLIDAYS

Holidays for students are: Martin Luther King Day, President's Day, Spring Break, Memorial Day, Fourth of July, Labor Day, Native American Day, Veteran's Day, Thanksgiving Day and the day after, Christmas Eve Day, Christmas Day, New Year's Eve Day, New Year's Day, Battle of Little Big Horn Day, Juneteenth, and Wounded Knee Remembrance Day.

Should a holiday fall on a Saturday, students shall have the Friday immediately before that Saturday off. Should a holiday fall on a Sunday, students shall have the Monday immediately after that Sunday off.

Students shall be granted these holidays and days of legal discontinuance off as set annually. The School Board will approve any changes to the holidays.

4.57 EMERGENCY CLOSING OF SCHOOL

The Administration or transportation director may close school for emergencies, which threaten the life, health or safety of the students and staff.

The Administration shall notify students and parents/legal guardians that they will receive instructions from radio, television stations, emails, AHS web pages, social media feeds, and via the NASIS automated messaging system as to the operation of the school during an emergency.

If there is no school, then the school will not permit to students to participate in school sponsored extra-curricular activities.

The Administration shall contact local radio and television stations to notify parents and students if school is dismissed prior to the school day beginning. If the school is dismissed during the school day.

4.58 COMMUNICABLE DISEASES

1. The Board recognizes its responsibility to provide a safe and healthy environment for the students.
2. The School Nurse shall determine the need to exclude an infected student from the classroom or school activities. Before making a determination to exclude a student, the School Nurse shall consult with Indian Health Service or other medical authorities. In deciding, the following criteria shall be considered:
 - a. The expected type(s) of interaction with others within the school.
 - b. The impact that interaction will have on the infected student and others within the school.
 - c. The physical condition, behavior, and developmental level of the infected student.
 - d. Indian Health Service guidelines.
 - e. The recommendations of Indian Health Service medical authorities.
3. Should an infected student not be permitted to attend school or participate in school activities, the school shall provide the student with appropriate homebound educational materials until such time as the student is able to return. 4.61 INTERNET ACCEPTABLE USE POLICY AGREEMENT

American Horse School promotes the philosophy that technology is a necessity not a luxury in today's educational system. Access to the internet allows students to be connected to the world and all that the connection offers.

1. American Horse School encourages students who have been granted access to explore the Internet, but if this exploration is for personal purposes, it must be done on personal time.
2. THE FOLLOWING BEHAVIORS ARE NOT PERMITTED WHILE USING SCHOOL TECHNOLOGY, THE INTERNET, OR CONNECTIVITY PROVIDED BY AHS:

 - l. Damaging computers, computer systems, or computer networks.
 - m. Intentionally wasting limited resources.
 - n. Employing the network for commercial purposes.
 - o. Individual users of the network are responsible for their behavior and communications over the network. It is presumed that users will comply with school standards and will honor this agreement. Beyond the clarification of such standards, the school is not responsible for improper or illegal use of the network and school provided technology.
 - p. The use of the Internet and electronic mail is a privilege and not a right and inappropriate use will result in suspension and/or cancellation of these privileges.
 - q. Social media, instant messaging, peer-to-peer, file sharing and chat sites are not authorized for use from the school provided technology.
 - r. Students will follow all lab rules and teacher directives.

4.62 ASBESTOS NOTIFICATION TO PARENTS, STUDENT, AND EMPLOYEES

(Required by the *Asbestos-Containing Materials in Schools Rule*, §§ 763.84(c) and 763.93(g) (4)).

Asbestos is a naturally occurring fibrous mineral which, until about 1980, was commonly used in building construction. Asbestos will not burn, is an excellent insulator, has great tensile strength, is resistant to chemicals, is a nonconductor of electricity, and absorbs sound. Examples of *asbestos-containing building material (ACBM)* are vinyl floor tile, sprayed-on acoustical ceiling material, pipe and boiler insulation, and roofing felt. As ACBM deteriorates over time, or is disturbed by maintenance, renovation, or demolition activities, it may become *friable*, i.e., it is capable of being reduced to powder by hand pressure. When ACBM becomes *friable*, asbestos fibers are released into the air. Inhalation of these airborne, microscopic asbestos fibers has been proven to cause such fatal diseases as lung cancer, mesothelioma (cancer of the lining of the lung or abdominal cavity), and asbestosis (scarring of lung tissues). Uncontrolled asbestos contamination in buildings has been, and remains, a significant environmental and public health issue. In 1986, Congress enacted the *Asbestos Hazard Emergency Response Act (AHERA)* to require public and private, secondary and elementary schools to identify ACBM in their school buildings and take appropriate actions to control the release of asbestos fibers. In 1987, the US Environmental Protection Agency finalized a regulatory program which enforces the *AHERA* mandate. These regulations are incorporated within the *Asbestos-Containing Materials in Schools Rule* (40 C.F.R. Part 763, Subpart E).

In compliance with the *Asbestos-Containing Materials in Schools Rule*, the **American Horse School** School/School District had its school building(s) inspected by an asbestos inspector, accredited by the State of **SO. DAK.**. During that inspection, areas of suspect ACBM were identified. The type, condition, and location of this ACBM were noted. Samples were taken of some or the entire suspect ACBM. Laboratory analysis of these samples confirmed the presence or absence of ACBM. Suspect ACBM not sampled and analyzed were assumed to contain asbestos. Confirmed and/or assumed ACBM currently remain in certain locations in our school building(s) (*list types and locations of ACBM*).

Upon confirmation of the presence of ACBM, an Asbestos Management Plan was developed for each of the school buildings in the School/School District by an asbestos management planner, accredited by the State of **SO. DAK.**

The Asbestos Management Plan(s) include a description of the measures currently being taken to ensure that the ACBM remaining in our school building(s) is maintained in a condition that will not pose a threat to the health of our students and employees. These Plan(s) describe past response actions taken to abate ACBM, as well as response actions planned for the future, including (See Asbestos Management Plan(s)). The Asbestos Management Plan(s) provide information on the periodic monitoring of the condition of ACBM remaining in our school building(s) through triennial re-Inspections, conducted by accredited asbestos inspectors, and through semiannual surveillance, conducted by trained school maintenance staff.

Copy/copies of the Asbestos Management Plan(s) is/are available for your review in the School/School District administrative office during regular office hours. **8:00- 4:00pm** is the designated Asbestos Program Coordinator for the School/School District. Please direct all inquiries regarding the Asbestos Management Plan(s) to him/her at telephone **6 0 5 -455-1209.**

4.63 FERPA NOTICE

THIS NOTICE IS ALSO GIVEN OUT WITH ENROLLMENT PACKETS AS PART OF STUDENTS ENROLLMENT

FERPA gives parents (as well as students in postsecondary schools) the right to review and confirm the accuracy of education records. This and other United States "privacy" laws ensure that information about citizens collected by schools and government agencies can be released only for specific and legally defined purposes. Since enacting FERPA in 1974, Congress has strengthened privacy safeguards of education records through this law, refining and clarifying family rights and agency responsibilities to protect those rights.

FERPA's legal statute citation can be found in the U.S. Code (20 USC 1232g), which incorporates all amendments to FERPPA. FERPA regulations are found in the Federal Register (34 CFR Part 99). FERPA's 1994 amendments are found in Public Law (P.L.) 103-382.

FERPA Protects Privacy

FERPA applies to public schools and state or local education agencies that receive Federal education funds, and it protects both paper and computerized records. In addition to the Federal laws that restrict disclosure of information from student records, most states also have privacy protection laws that reinforce FERPA. State laws can supplement FERPA, but compliance with FERPA is necessary if schools are to continue to be eligible to receive Federal education funds.

FERPA requires schools and local education agencies to annually notify parents of their rights under FERPA. The notice must effectively inform parents with disabilities or who have a primary home language other than English. The annual notice pertaining to FERPA rights must explain that parents may inspect and review records and, if they believe the records to be inaccurate, they may seek to amend them. Parents also have the right to consent to disclosures of personally identifiable information in the record, except under authorized circumstances.

FERPA gives both parents, custodial and noncustodial, equal access to student information unless the school has evidence of a court order or state law revoking these rights. When students reach the age of 18, or when they become students at postsecondary education institutions, they become "eligible students" and rights under FERPA transfer to them. However, parents retain access to student records of children who are their dependents for tax purposes.

FERPA Defines an Education Record

Education records include a range of information about a student that is maintained in schools in any recorded way, such as handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche. Examples are:

- Date and place of birth, parent(s) and/or guardian addresses, and where parents can be contacted in emergencies;
- Grades, test scores, courses taken, academic specializations and activities, and official letters regarding a student's status in school;
- Special education records;
- Disciplinary records;

- Medical and health records that the school creates or collects and maintains;
- Documentation of attendance, schools attended, courses taken, awards conferred, and degrees earned;
- Personal information such as student's identification code, social security number, picture, or other information that would make it easy to identify or locate a student.
- Personal notes made by teachers and other school officials that are not shared with others are not considered education records.
- Additionally, law enforcement records created and maintained by a school or district's law enforcement unit are not education records.

Part of the education record, known as directory information, includes personal information about a student that can be made public according to a school system's student records policy. Directory information may include a student's name, address, and telephone number, and other information typically found in school yearbooks or athletic programs. Other examples are names and pictures of participants in various extracurricular activities or recipients of awards, pictures of students, and height and weight of athletes.

Each year schools must give parents public notice of the types of information designated as directory information. By a specified time after parents are notified of their review rights, parents may ask to remove all or part of the information on their child that they do not wish to be available to the public without their consent.

FERPA Guarantees Parent Review and Appeal

If, upon review, parents find an education record is inaccurate or misleading, they may request changes or corrections, and schools and education agencies must respond promptly to these requests. Requests should be made in writing, according to an agency's annual notice of procedures for exercising rights to amend records. Within a reasonable time period, the school or agency must decide if the request to change a record is consistent with its own assessment of the accuracy of the record. If a parent's request is denied, he or she must be offered the opportunity for a hearing. If the disagreement with the record continues after the hearing, the parent may insert an explanation of the objection in the record.

FERPA's provisions do not apply to grades and educational decisions about children that school personnel make.

While parents have a right to review records, schools are not required by Federal law to provide copies of information, unless providing copies would be the only way of giving parents access. Schools may charge a reasonable fee for obtaining records, and they may not destroy records if a request for access is pending.

FERPA Restricts Disclosure of Student Records

Local education agencies and schools may release information from students' education records with the prior written consent of parents, under limited conditions specified by law, or as stated in local agencies' student records policies. The same rules restricting disclosures apply to records maintained by third parties acting on behalf of schools, such as state and local education agencies, intermediate administrative units, researchers, psychologists, or medical practitioners

who work for or are under contract to schools.

If an education agency or school district has a policy of disclosing records, it must specify the criteria for determining school officials within an agency, including teachers, who have a legitimate educational interest. Generally, school officials have legitimate educational interest if they need to review an education record to fulfill their professional responsibilities.

Teachers and school officials who work with the students and schools to which students apply for entrance may also have access to education records without prior consent of the parent. In addition, information from students' records may be released to state and local education officials to conduct audits or to review records in compliance with Federal laws. Schools may also disclose information from education records without the consent of parents in response to subpoenas or court orders. A school official must make a reasonable effort to notify the parent before complying with the subpoena unless the subpoena is issued to enforce a law and specifies not to notify the parent. In emergencies, school officials can provide information from education records to protect the health or safety of the student or others.

There are cases when schools or school systems decide it is in the public interests to participate in policy evaluations or research studies. If student records are to be released for these purposes, the school or school system must obtain prior consent of the parent. Signed and dated written consent must:

- Specify the records that will be released;
- State the reason for releasing the records;
- Identify the groups or individuals who will receive the records.
- In general, information about each request for records access and each disclosure of information from an education record must be maintained as part of the record until the school or agency destroys the education record.
- Outside parties receiving records must receive a written explanation of the restrictions on the re-release of information.

Additional FERPA Provisions

In 1994, the Improving America's School Act amended several components of FERPA, tightening privacy assurances for students and families. The amendments apply to the following key areas:

Parents have the right to review the education records of their children maintained by the state education agencies.

Any third party that inappropriately re-releases personally identifiable information from an education record cannot have access to education records for five years;

Information about disciplinary actions taken against students may be shared, without prior consent of the parent, with officials in other education institutions;

Schools may release records in compliance with certain law enforcement judicial orders and subpoenas without notifying parents.

School districts, state education agencies, and the U.S. Department of Education all offer assistance

SECTION 500-FISCAL MANAGEMENT

FISCAL MANAGEMENT GOALS

Fiscal management goals can be attained through sound fiscal management. American Horse School (School) utilizes generally accepted accounting principles as applied to governmental entities. The accounting and financial reporting of the School is prescribed by provisions of grants and contracts from Federal or other governmental agencies and may be prescribed by state laws, agreements with employees, and agreements with individuals or private organizations which have donated assets to be used for specific purposes. The School is also bound by administrative regulations of agencies of higher jurisdictions. The Board recognizes that quality education is central to the purpose of the school and that fiscal management must be used as a tool to achieve this purpose by attaining the following goals.

1. To engage in thorough advanced planning with staff and community involvement.
2. To develop budgets to guide expenditures in order to receive the best return for the dollar spent.
3. To establish levels of funding which will provide quality education for the students.
4. To utilize the best available techniques for budget development and management.
5. To require maximum efficiency in accounting and reporting procedures.
6. To follow the Federal guidelines governing the investment of school funds.

GENERAL FISCAL GUIDELINES

These general guidelines should be considered administrative rules and regulations and are to be adhered to as closely as possible by all departments in the procurement of goods and services.

LOCAL BUYING. It is the desire of the School to purchase from local vendors whenever possible. This can be accomplished by ensuring that local vendors that have goods or services available which are needed by the School and that are interested in doing business with the School are included in the competitive process which will precede most purchases. The School has a responsibility to ensure that the maximum value is obtained for each dollar spent so comparison shopping is strongly encouraged.

PLANNING. Planning for purchases should be done on both a short-term and long-term basis. Small orders and last-minute purchases should be minimized, thereby increasing the capability of each department to purchase its goods and services in larger quantities in order to obtain the maximum discounts possible. Planning will also cut down on the number of trips required to obtain materials and minimize the amount of the time spent on documenting purchases. The purchasing process begins with the preparation of the Annual Budget.

OVERDRAFTS PROHIBITED. No purchase will be authorized which would overdraw a budget line item, without prior discussion, Board approval of a budget amendment and documentation.

SALES TAX. The School is exempt from paying all local and state sales tax. The Business Office can provide the necessary exemption documents to any vendor upon request. It is the responsibility of the purchaser to ensure sales tax is omitted from the invoice.

BUYING PROPER QUALITY. Quality and service are just as important as price and it is the duty of the requisitioning department to secure the best quality for the purpose intended. Quality buying is the buying of goods or services that will meet but not excessively exceed the requirements for which they are intended. In some instances, the primary consideration are durability and reliability. With other purchases, it may be a question of immediate availability, ease of installation, frequency of repair or efficiency of operation that must be given primary consideration.

PURCHASING. The function of purchasing is to serve the educational program by providing the necessary supplies, equipment and services. The Board will abide by all laws and regulations relating to purchases by the school and the control of its finances and property. All contracts must be approved by the Board in order to be binding on the school system.

BIANNUAL PAY CERTIFICATIONS. The Business Manager will prepare a payroll certification that must be signed by all employees Biannually, on September 30 and March 30.

FISCAL REPORTING REQUIREMENT. The Business Office shall coordinate with the School administration to complete any and all reporting requirements in a timely manner.

CREDIT CARD PURCHASES.

Credit card purchases must follow the guidelines outlined in this policy. Use of the School-issued credit card should not lead to additional incurred charges and should only be used when it is advantageous to the School.

1. All purchases made with a School issued credit card or by electronic transaction shall be accounted for with purchase receipts retained from the point of sale at which the item(s) were purchased. The requestor/purchaser is responsible for submitting detailed receipts and is responsible to ensure that duplicate receipts are obtained if the original receipts are lost. He/She will initiate a purchase request to account for charges made on the card. The purchaser will advise the vendor that the purchase is tax exempt.
2. The Business Office shall audit the credit card receipts, reconcile the credit card statements and process the charges for payment by the School.
3. Any transaction must comply with all applicable School policies.
4. Purchase of alcoholic beverages is prohibited.
5. Cash advances are prohibited and the card cannot be used for tips.
6. School issued credit cards or any electronic transactions may not be used to pay for any item which does not directly benefit the School.
7. The credit card accounts shall be administered by the Business Office.
8. Personal use of the credit card or any electronic transaction is strictly prohibited. Misuse of a School issued credit card or any electronic transaction will be considered grounds for disciplinary action up to and including termination.

9. Any perks, credits or items of value earned through the use of said School issued credit card shall only be used for the benefit of the School and not for that of any employee. Additional cardholder responsibilities will be communicated as necessary.

5.01 Fiscal Management System

The Business Office is organized and maintained in a manner to assist and provide the Administrator with information necessary to create a solid financial basis to operate the school system. Its functions are:

1. To assist the Administrator, department heads, and other school stakeholders in preparing budgets for the operation of the entire school system.
2. To prepare all necessary reports concerning the financial operation of the entire school system.
3. To prepare payroll for all personnel employed by American Horse School.
4. To monitor and assist the food service and transportation program in areas deemed necessary.
5. To assume and carry out other responsibilities assigned by the Board.

TYPES OF FUNDS

The School utilizes the following types of funds within its accounting system.

1. General Fund: The general fund is the operating fund of the School. It is used to account for all financial resources except those required to be accounted for in another fund. The indirect cost charges collected from other funds are accounted for as a separate component of the general fund.
2. Special Revenue Funds: The special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds are grant /contract funds from Federal or State agencies which represent the activities of various programs which are disbursed by the School and over which the School exercises fiscal and administrative control.
3. Capital Projects Fund: The receipt and disbursement of all financial resources to be used for the acquisition of capital facilities, other than those financed by economic ventures, is accounted for by the capital projects fund.
4. Enterprise Funds: (if appropriate) Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services on a continuing basis be financed or recovered primarily through user charges or enterprise revenues.
5. Internal Service Funds: Internal service funds are used to account for the financing of goods or services provided by one department to other departments of the School and to other governmental units, on a cost reimbursement basis.
6. General Fixed Assets Group of Accounts: The general fixed asset group of accounts identifies an accounting entity, not a fiscal entity, and therefore is not technically a fund. It is used for the recording of general fixed assets and to calculate depreciation expense for all funds except enterprise funds (not exclusively used by any one fund). The purposes of recording general fixed assets are primarily stewardship needs to provide for physical and

dollar value control and secondarily for an accountability for general capital expenditures over the years. These assets are recorded at historical cost or estimated historical cost if the original cost is not available, or, in the case of gifts or contributions, at fair market value at the time received.

7. General Long-Term Debt Account Group: The general long-term debt account group is used to account for the outstanding Administrator balances of the general obligations of the School and other long-term debt not reported in proprietary funds.

BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to timing of the measurements made, regardless of the measurement for focus applied.

The first three groups of funds identified above (general, special revenue, and capital projects) utilize the modified accrual basis of accounting. The purpose of this is to match expenditures of legal appropriations, or legal authorization, with revenues available to finance expenditures. The modified accrual basis of accounting is defined as: Revenues should be recognized in the accounting period in which they become available and measurable; and, expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable.

The accrual basis of accounting is used for the enterprise fund and the internal service fund. Accrual accounting means that revenues are recorded in the period in which the service is given, although payment may be received in a prior or subsequent period, and expenses are recorded in the period in which the benefit is received, although payment may be made in a prior or subsequent period.

TYPES OF ACCOUNTS

The accounts utilized by the School in its accounting system include the following:

- Assets: Assets are financial representations of economic resources owned by the School.
- Resources: Resources are the contingent assets of the School, such as estimated revenues applying to the current fiscal year.
- Liabilities: Liabilities are the debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. (Note: The term liability does not include encumbrances. See below.)
- Appropriations: Appropriations are authorizations to incur liabilities for purposes specified in the contract/grant for which the authorization is made.
- Fund Balance: Fund balance is the excess of the assets of a fund over its liabilities and reserves except in the case of funds subject to budgetary accounting where, prior to the end of the fiscal period, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves, and available appropriations for the period.
- Revenues: For those revenues which are recorded on the accrual basis, this term designates additions to assets which: a) do not increase any liability; b) do not represent the recovery of an expenditure; c) do not represent the cancellation of certain liabilities without a corresponding increase in other liabilities or a decrease in assets; and d) do not

represent contributions of fund equity in the enterprise fund. The same definition applies to those cases where revenues are recorded on the modified accrual basis, except when revenues are generally either limited to partially or entirely cash.

- **Expenditures:** Expenditures are recorded when liabilities are incurred pursuant to authority given in an appropriation. If the accounts are kept on the accrual basis or the modified accrual basis, this term designates the cost of goods delivered or services rendered, whether paid or unpaid, including expenses, provision for debt retirement not reported as a liability of the fund from which retired, and capital outlays.
- **Encumbrances:** Encumbrances are contingent liabilities in the form of purchase orders, contracts, or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when the actual liability is recorded.

5.02 FUND BALANCE POLICY IN ACCORDANCE WITH GASB STATEMENT NO. 54

The Board will ensure that the school maintains adequate fund balances and reserves in order to:

1. Provide sufficient cash flow for daily financial needs.
2. Secure and maintain investments grade bond ratings.
3. Offset significant economic downturns or revenue shortfalls.
4. Provide funds for unforeseen expenditures related to emergencies.

5.03 Annual Operating Budget

The school budget is regulated and controlled by federal legislation, regulations and Board requirements. The annual preliminary operating budget will be prepared and presented to the Board every May. The budget shall be based on all sources of revenue available to the Board for operations of the school and proposed expenditures.

5.04 Budget Goals and Objectives

The annual operating budget established by the Board shall incorporate:

1. Programs and staff required to implement identified goals and student learning needs.
2. A focus on personnel providing direct education and support services for students.
3. Ongoing programs designed to maintain and enhance the educational aspirations of students.
4. Procedures for modification in the revenue for the operation of educational services for students.
5. Procedures for insuring adherence to legal and other considerations for all programs at the school.

5.05 Fiscal Year

Fiscal year for operation of the school shall be July 1 to June 30, unless otherwise legislated by funding agencies.

5.06 BUDGET PREPARATION

The Administrator along with each department supervisor shall be responsible for developing and establishing their department's budget. All budgets shall follow the respective department's/school's goals and objectives. The Business Manager shall be responsible for reviewing and monitoring the annual budget preparation procedures adopted by the Board.

AHS has determined that the presence of controlled substances on school grounds in the past year and threats from weapons has resulted in a real and serious threat to the health and safety of students and personnel that warrants additional student screening procedures upon entry to the School. To address this threat, the School may conduct searches of student backpacks and bags upon entry to the School grounds and after exiting and re-entering the School building. The School may also install a metal detector and use detection wands at the entry doors to the School for the purpose of preventing the presence of weapons in the School and require all students to clear the metal detector. Any student who does not clear the metal detector or detection wand screening will be subject to search of their personal property and person prior to entry. Students and parents are notified with the adoption of this Policy that the School may conduct random search upon entry to the building to mitigate the serious and real risk posed by

the presence of weapons and/or controlled substances in the school.

The school reserves the right to search students and/or their personal property when a school official, a teacher, or staff member has reasonable suspicion that the student has violated the law or school policy, or poses a threat to the health and safety of students, based upon a reasonable suspicion that drugs, alcohol, or weapons are present in a student's personal property, or there is reasonable suspicion and an immediate need to secure evidence relating to a criminal offense (assault, drug offenses, etc.). If a student is suspected of using their cell phone or electronic device in violation of AHS policy, staff or administrators may reasonably search the contents of the student's phone for evidence of the specific violation. School Officials have the authority to conduct searches of individual student(s) and the student's property. After a student has entered the School, the student's personal effects including suitcases, bags, storage containers, backpacks, purse, or wallet will not be searched without the student's presence and permission unless there is a clear indication with reasonable suspicion that a law or school regulation have been broken. Reasonable suspicion proves that school/dormitory or officials are not under the more stringent conditions of probable cause as are law enforcement officials. The School Resource Officer is also covered under the conditions of reasonable suspicion when directed by the School Administrator.

In order to maintain a safe and positive learning environment in the school, any student suspected of being intoxicated, under the influence of controlled substances or alcohol, and/or in possession of controlled substances, or contraband may be searched by school officials, including personal items such as bags, purses, etc.. Students who refuse to submit to a search may be referred to appropriate law enforcement authorities if such action is deemed necessary by the administration.

If an actual student search is deemed necessary, as staff members of the same sex as the student and with the same sex witness must do the search. If probable cause exists, "law enforcement will decide if a strip search is required based on law enforcement procedures. Under no circumstances will the school/dormitory officials conduct a strip search on any student".

Staff have the right to examine any personal property left unattended on school grounds and such activity does not constitute a search. This includes search of cell phones and other items including backpacks and purses.

All students have the right to a reasonable degree of privacy, but that privacy does not extend to the endangerment of the health and safety of other students or staff. The School recognizes and will preserve that student's right to privacy and security of personal effects. However, it is the inherent right of the School Officials to inspect each student possessions, backpacks, bags, and other storage space for safety and health hazards and/or a violation of the school/dormitory regulations.

Representatives of the media will not be present during the drug dog searches. During the search itself, students will not be present in the immediate areas of the search. The handler of the drug dog will conduct a "pre-search" of the area prior to introducing the drug dog to that area. During a search, the drug dog may alert to a particular personal item, backpacks, bags or vehicle. At the discretion of the Highway Patrol or police officer, the possession, area, and/or storage space in question will be secured and searched immediately by the law enforcement officers. If illegal drugs are found, the South Dakota law enforcement officers will seek out and question the user(s) of the possession, area, and/or storage space. When the identity of the person possessing the illegal drugs is established, an arrest will be made immediately. If illegal drugs are not found in the possession, area, and/or storage space to which the drug dog has alerted, the identification of that possession, area, and/or storage space will be disclosed to the school Administrator or their designee. The students and staff of the school recognize that their security and safety depend upon the capacity of the school to maintain discipline and order and, consequently, supervision over and the ability to impose certain conditions on the activities of students is assumed and expected. Nevertheless, the school recognizes established privacy interests of its students and staff, and is committed to protect the confidentiality of students and staff's records maintained by the school to the extent authorized by law.

The school has determined that electronic surveillance systems are necessary for monitoring activity on school property, and in school vehicles in order to protect the health, welfare and safety of its students, staff, and other authorized occupants. Accordingly, the School authorizes the use of electronic surveillance in the form of video camera surveillance on the school offices, classrooms, buildings, grounds, and in its transportation, vehicles as follows:

Video cameras shall be placed in public locations deemed appropriate by the Administrator or designee and shall not be placed in areas where there is a reasonable expectation of privacy.

The School shall notify its students, their parents/guardians and School staff that electronic surveillance may occur on any School property, or on any transportation vehicle, and that video recordings may be used in disciplinary actions or sanctions. The School shall incorporate said notice in handbooks, post notice at the main entrance of the School office, school buildings, classrooms, and at the entry door of any bus that may have electronic surveillance equipment in operation.

The use and maintenance of electronic surveillance equipment on school grounds, School property, or in transportation vehicles shall be supervised and controlled by the Facilities Manager, the school Administrators or designee. Students and staff shall not tamper or interfere with the video camera equipment.

The use of video recordings from surveillance equipment shall be subject to other policies of the School including policies concerning the confidentiality of student and personnel records. The School shall comply with all applicable state and federal laws related to record maintenance, retention, and disclosure including the Family Educational Rights and Privacy Act (“FERPA”), and all applicable tribal, state and federal laws.

Electronic surveillance shall only be used to promote the order, safety, and security of students, staff, property, and other authorized individuals. The School may rely on the images obtained by video surveillance cameras in connection with the enforcement of Board policy, administrative regulations, building rules, and other applicable laws.

In addition to any surveillance that might otherwise be permitted by law, video or audio recording in the classrooms will be permitted to promote educational purposes and staff improvement but not for staff or teacher discipline unless the recording of staff or teachers is incidental to an otherwise properly recorded incident.

Surveillance systems and all resulting recordings shall be located in a secured area and access to the system and recordings shall be strictly limited. Video recordings will be archived on a secured server for ten (10) days until removed. Recordings may be reviewed as authorized by the Administrator or designee.

Video recordings retained as part of an individual student’s disciplinary record shall be maintained in accordance with law and board policy governing the access, review, and release of student records.

Employees shall be responsible for the appropriate use of technology and shall not use any school resources for unethical practices or any activity prohibited by law or school policy.

Viewing Requests

Due to federal law and student privacy concerns, the school will not allow video to be reviewed unless a court order requires it. In such instances, the video shall only be reviewed at the school

under proper supervision and the viewer shall agree to maintain confidentiality as it relates to other students.

All viewing requests must be submitted in writing. Requests for viewing will be limited to those parents/guardians, legal custodial guardians, school officials and/or law enforcement with a direct interest in the proceedings as authorized by the Administrator and only the portion of the video recording concerning the related specific incident will be made available for viewing.

Written requests for viewing may be made to the Administrator within five (5) school days of the date of recording, and/or notice of the recording.

The School Board will approve or deny a request for viewing within ten (10) school days of receipts of the request and so communicated to the requesting individual.

Video recordings will be made available for viewing within three school days of the request approval.

Actual viewing will be permitted only at school-related sites, including the school buildings or essential administrative offices.

All viewing will include the building Administrator, or their designee.

A written log will be maintained for those viewing video recordings, including the date of viewing, reason for viewing, date the recording was made, location at school or school office, and signature of the viewer.

Video recordings will remain the property of the school and may be reproduced only in accordance with law, including applicable Board policy and regulations.
