ABOUT NACRW

The North American Chemical Residue Workshop (NACRW) is a 501(c)(3) non-profit organization dedicated to advancing scientific knowledge in trace-level analysis of pesticides, veterinary drug residues, and other chemicals in food, animal feed, and environmental samples. Each year, NACRW hosts an annual conference that brings together scientists from around the globe to share expertise, develop new analytical methods, and foster professional collaboration. While most attendees are from North America, the conference continues to attract an increasing number of international participants from Asia, Europe, South America, Australia and Africa. Renowned international speakers are consistently featured in the technical program.
