

## **Unusual Angle Images & Framing Images**

For this project you will use your keenly developing photographer's eye to capture 4 interesting images using the technique of unusual angle. In addition, you will also use your expanding photographer's eye to create images that employ the technique of framing.

### **Requirements:**

Images should be of four different subjects/objects. You will be submitting your 4 best images. Take many, many shots before you choose the ones to submit. Experiment, get out of the box!

### **Considerations:**

Unusual Angle:

Get high, get low. Get under, get over. Get creative.

Framing:

Surround your focal point with interest. Create depth. Use related props.

Remember your composition principles, for example focal point, rule of thirds

### **Submit:**

Your 4 best images

**Due Date:     January 17<sup>th</sup>, 2025**
