

## Black Entity

Its a **african political check**, majoring on **universities**.

Putting it in mind that, comrades mostly differ ideologically when trying to sell(campaign) manifesto. This a times trigger clashes and attract grudges.

So , this is targeting on building **integrity** in campus elections and shaping national or african politics as well.

Leadership is not, destroying humanhood correlation but building unity. And atimes when our leaders choose to bring wrangles and cause any negative impacts on the society, such kind of people must be excluded from politics.

We must do **safe Politics**, without gooning and blogging around. No need to eliminate someone without any cleaner evidence.

Else, the Electoral Board must be questionable.

Again, with Politics, **we always go with majority win** , whether you love or hate. You **must** work with the elected team for development. Therefore, as we major on campus politics, kindly let's keep love amidst us. We can work together after Politics.

**"Even if Politicians caused wrangles,  
leaders will bring peace"** Mutisya Mwanzia
