Bahir Dar - Lalibela

May 9th - May 16th 2020

Ethiopia has significant medical needs among the poor throughout the country. Yet, it remains a unique destination not impacted by the wave of tourism that is covering most Eastern African countries. We will spend the first day in the modern capital of Addis Ababa before we head out to Bahir Dar, capital of the Amhara region, south of Lake Tana. We will be working with the medical/dental professionals at the local hospital where we will be working together to bring a medical mission to the people of Amhara. Before ending the mission, we will travel to Lalibela, home of the ancient rock churches.
