

PATRIOT PRIDE POOL CLEANING DBA INTEGRITY POOL AND SPA

The Quarterly Wrap-up Newsletter - October 2025

Pool Drains

We recommend a pool drain every two years due to frequent chemical additions and our dry evaporative desert climate can lead to the accumulation and sticking of unsightly mineral contaminants on the pool tile, walls, and floor within a span of just two years.

Dustless Soda-Blasting

The dustless blasting method we use for cleaning pool tile is a non-toxic, mild abrasive Kerisitie material that is used with a water stream to clean oil, calcium, algae and other grime from the tile.

Enables us to de-coat and clean surfaces in one step without leaving residue.

Wet soda blasting is not as abrasive as dry and is still able to remove just as much calcium!

The media we use is also environmentally friendly and water-soluble.

Please call our office for a quote and to be added to the list for this year!

Receive a discount on your Soda Blast if you call to book by the end of October 2025!!

Technician Time Management

Our technicians have a Maximum of 30-minutes to clean your pool each week (Depending on Package), after the 30-minute period if more cleaning is needed an additional fee may be applied.

Technicians can be Certified within 90-days of hire, they are always supervised under a Certified Technician/Operator.

2550 Kiowa Blvd N STE 204 Lake Havasu City, AZ 86403

Office Hours: Monday-Friday 8:00am - 3:00pm

PATRIOT PRIDE POOL CLEANING DBA INTEGRITY POOL AND SPA

The Quarterly Wrap-up Newsletter - October 2025

Lower Temperatures = Lower Monthly Bills!! [Time to turn those heaters on!](#)

The use of your swimming pool is not only limited to the summertime in Arizona! Heating the pool in Fall/Winter months is the best way to extend the swimming season and keep the pool operating year-round.

Please ensure that the pump area is clear of debris and leaves as it may put more strain on your equipment.

If you do not want to rack up the electricity bill, another alternative would be a Pool Solar Cover!

(if you are interested in a cover, please call our office for a quote)

We require all covers to be removed on your service day

Filter Cleans and Upgrades

A clean filter is needed to maintain the clarity of your pool and prevent the growth of algae and bacteria that can pose health risks to swimmers.

Our office will text or call when your filter clean is due, work will not be performed without prior authorization.

Authorization approves tech to replace parts if needed.

Please call if you would like to be scheduled without prior approval

If you would like to replace your filter or upgrade your system please give us a call for an estimate!

Have a Fun and Safe Happy Halloween!!

Thank you for choosing us to keep your pool sparkling all season long! We are grateful for your trust in our team.
