

PATRIOT PRIDE POOL CLEANING DBA INTEGRITY POOL AND SPA

The Quarterly Wrap-up Newsletter | July 2025

Summer is Here!

**With the hot sun approaching it is important to have your pool in top condition!
Chemical dosages will increase as the temperature and pool usage rise.**

Here are some quick tips for the Summer Months:

- Our technicians may start servicing earlier in the morning to beat the heat!
 - Schedules can run 1/hr per 10 degrees (should not exceed 10hrs)
- If interested you can get a 50lb bucket of tablets, please call for pricing
 - Above-ground spa drains are recommended every 3-6mo depending on usage
 - Rinsing off before jumping in!
- Adding Borates to your pool will help with skin and eye irritation

Filter Cleanings:

Allowing your filter to become too dirty can put additional strain on the pool pump, possibly leading to mechanical issues and costly repairs.

A clean filter is needed to maintain the clarity of your pool and prevent the growth of algae and bacteria that can pose health risks to swimmers.

It is important to clean your filter every 6-8 Months depending on usage.

Please call our office to be added to the schedule, Filter cleans will not be preformed without prior authorization

Upgrading Equipment

Upgrading your pool equipment, particularly pumps, can significantly enhance efficiency and reduce costs.

Variable-speed pumps can save up to 90% on energy bills compared to single-speed by adjusting flow rates to the pools needs.

Other upgrades like LED lighting, Pump housings/Basket chambers, and Automation systems further optimize performance, lower maintenance, and improve water quality, making them cost-effective investments.

Let us know how we can help you upgrade your Pool/Spa this Summer!
