

VERSATILITY CLINIC

At Union Fair Grounds on Thursday, August 6th starting at 9 am. Peter Whitmore is offering a versatility clinic which is either mounted or in hand and it uses obstacles to increase communication and build trusting relationships between horse and rider. Peter is from It's a Pleasure Training of Orange, MA. He has been instrumental in developing the mustang community in the Northeast. Equine versatility refers to a horse's ability to successfully perform multiple, diverse jobs, disciplines, or tasks rather than specializing in just one. Come and enhance your skills and build more trust in your equine partner. If you can't bring your horse come to the fair and check it out!

The cost is \$150 per participant and you bring your own horse to work with. We have a 12-slot limit for the day.
