*\*% lighter than adult head weights*

## Lighter, Longer, Faster

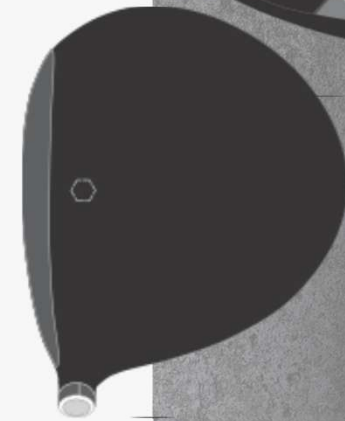

Lighter head weights, lighter and longer shafts, and lower lofts all lead to our longest driver ever!

## Optimized CG Position

To enhance feel, launch, and trajectory.

## Improved Cup Face

Maximum allowable USGA/R&A limits generate incredible ball speeds and improved distance

## VCI Technology

Velocity Core Insert provides increased ball speeds by transferring more energy into the golf ball.

## Re-positioned CG

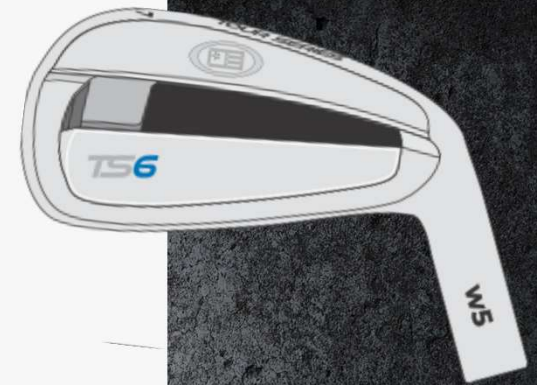

More mass where you need it, increasing forgiveness, feel, and distance.

## Thinner Toplines

15% thinner topline provides the look better players prefer.

## Re-Engineered Head Shape

Trailing edge relief provides increased versatility and workability, while softened leading edges reduce digging into the turf.

## Lighter, Longer, Faster

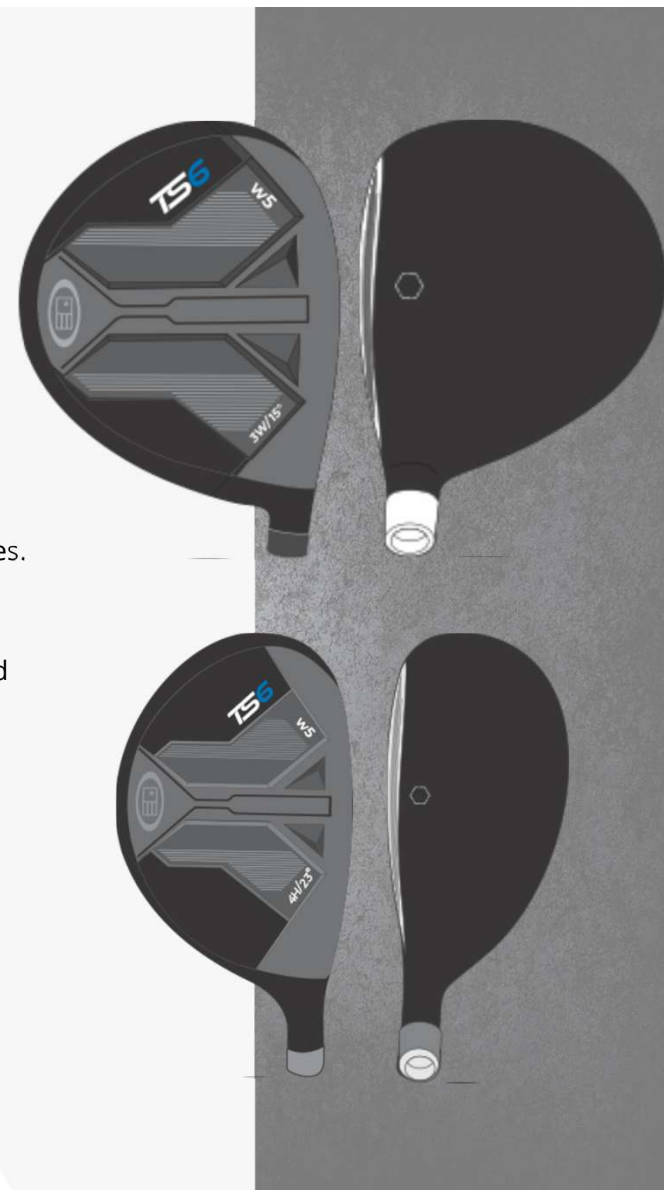

Fairway woods & hybrids feature lighter head weights, lighter and longer shafts, and lower lofts to ensure incredible distance gains.

## Re-engineered Shapes

Shallow profile design provides increased forgiveness and improved versatility from all lies.

## Thin Crown Design

Increased flexion at impact allows for improved distance with incredible stopping power when hitting into greens.

## Available Head Weights

\*% lighter than adult head weights

## Re-positioned CoG

PAD system ensures the perfect trajectory height for every shot by dynamically adjusting the CoG location.

## \*\*\*Grind System

Unique grinds specifically engineered to each loft ensures the proper turf interaction for the individual shot type being hit.

## CNC Micro-Milled Grooves

Micro-milled grooves to USGA/R&A groove conformance limits ensures maximum spin generation.

# TSG / Midland Putter

## Available Head Weights

*\*% lighter than adult head weights*

## MOI

High MOI design for improved stability, alignment, and making sure the ball starts and stays on-line.

## Oversized Grips

Larger, oversized grips with visual lines ensure proper alignment and minimize active hands.

## Tour-Quality Design

Re-engineered for improved feel, control, and site line.
