# Google Chrome Bookmarks
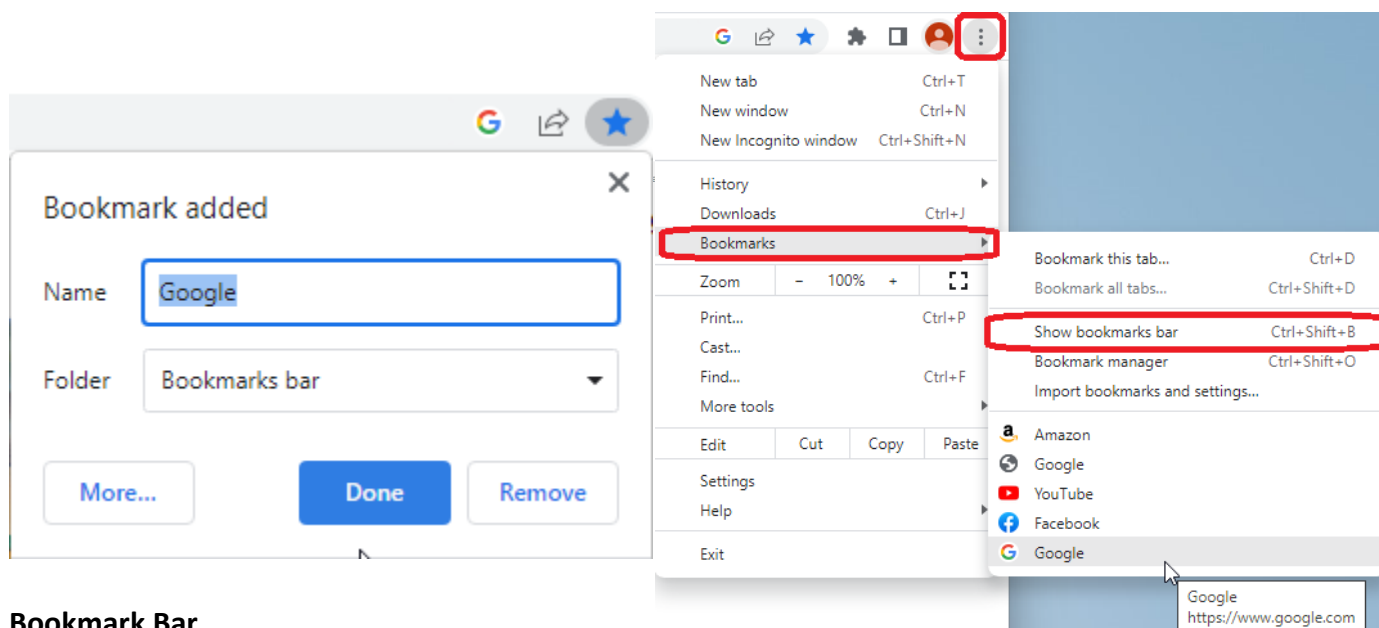

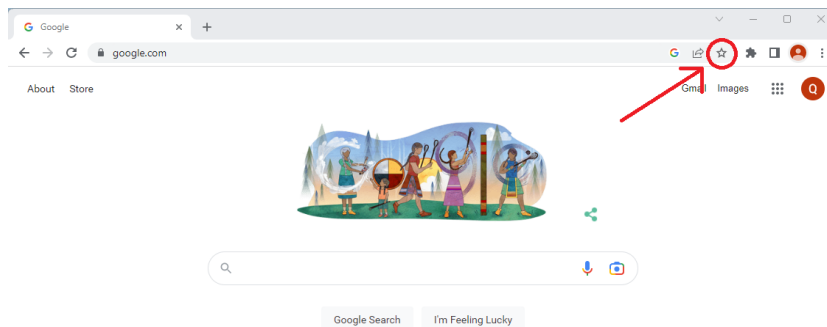

Bookmarks are a great way to quickly and safely navigate the web, follow these steps to learn the basics!

**Adding a bookmark**

Once you are on the website that you want to bookmark, near the top right corner in the URL bar there is the outline of a star.

Select the star and a new window will open to create a new bookmark.

**Bookmark Bar**

If you turn on "Show bookmark bar" in the menu above, your bookmarks will appear at the top of your window just under your URL. This is a great way to easily see your bookmarks.
