Brayven Solutions sources medical supplies and services across a wide spectrum for federal, state and local government organizations. As a small business, we play a large role in the procurement of these valuable products and services. From more traditional approaches to state-of-the-art solutions, we help our customers navigate change and accomplish new levels of performance, preparedness, and affordability:

Solution Oriented

- ✓ We learn you! - With over 10 years of professional experience, we are eager to find solutions to your agency/organizational procurement needs.

Customer Service & Procurement Background

- ✓ Analytically minded small business with a background in customer service, vendor management, procurement and emergency medical logistics.

Dedicated Account Management

- ✓ We maintain strong relationships with our subcontractors by conducting regular follow-ups, soliciting feedback and conducting vendor performance reviews.

Familiarity With What You Need

- ✓ Our solutions are designed to meet your overall agency goals and internal purchasing mandates.

CORE COMPETENCIES

Bandages and Tape: These products can help those who may have to perform wound care or dressing changes.

Bath safety Products: Examples may include bedpans, bedside commodes, shower grip bars, and urinals.

Bowel/gastric Management: This may include products for those with an ostomy or tube feeding supplies.

Incontinence Supplies: Examples are underpads, absorbent underwear, or washcloths/wipes.

Mobility Aids: Walkers, wheelchairs, crutches, canes, or transfer equipment comprise this category.

Physical Therapy Products: Examples include therapy wraps, cold packs, resistance bands, and other assistive physical therapy equipment.

Respiratory Supplies: CPAP masks, oxygen equipment, nebulizers, and oxygen masks or nasal cannulas are used for respiratory purposes.

Skin Care Products: These include special antiseptic soaps, barrier creams, and medical-grade skin cleansers.

Urological Supplies: Examples include drainage bags for catheters or intermittent catheters.

DIFFERENTIATORS

- **Global Supply Chain Management** - We manage the life cycle of your request including the sourcing, procurement and secure delivery.
- **In House Sourcing/Procurement** - We directly source your equipment and supply needs in a timely fashion.
- **Exceptional Quality Control** - We ensure what you order is actually what arrives to the requested location.
