

How can we make evaluation work better for you?

As someone who Volunteers on a Nature based project, we need your views to help us understand how we can make evaluation work for you whilst getting the information we need to help us learn, and to sustain projects.

The workshop will be a group discussion to share your thoughts about how to demonstrate the value of your projects and groups and what they achieve, and good and bad ways of collecting information. The discussion will take about an hour and will be led by a few questions from Leeds Beckett University staff. We would like to record the discussion, so that we don't miss any important information, and we may want to use some direct quotations in our report, but we will make sure that these are anonymous (i.e. the person who said it can't be identified from the quotation).

VENUE: Imagine Leeds: The Climate Action Hub on the 7th floor of the 'City Exchange' building. The street address is 11 Albion Street. Entry through the power operated doors. Take the lift to 7th Floor. There is a bike park a few doors up on Albion Street, near the entrance for Trinity Kitchen.

Thursday 29th June : 4-5pm & 6-7pm

We are running the same workshop twice so please pick which time suits you best. Please arrive 30 mins before the start of each session.

Food and refreshments will be provided. WY One Day bus travel Cards will be used to cover transport costs.
