PULAU AUR / DAYANG / PEMANGGIL

PULAU AUR / DAYANG / PERMANGGIL are one of Malaysia's most enchanting island escapes, tucked away in the Johor Marine Park. This secluded paradise is a sanctuary for those who crave tranquility and natural beauty. With no roads and minimal development, the island offers an authentic retreat where time seems to slow down. Its beaches are pristine, lined with soft white sand and framed by lush tropical greenery, while the surrounding waters shimmer in shades of turquoise and blue.

The real magic of these islands beneath the surface. Its coral reefs are alive with color and movement, home to reef sharks, manta rays, barracudas, and sea turtles. Divers from around the world are drawn to its famous sites such as Rayner's Rock and The Pinnacle, where the underwater scenery is nothing short of spectacular. For those who prefer to stay closer to shore, snorkeling reveals vibrant coral gardens teeming with marine life, making it just as rewarding.
