IT'S HOME.

NEW TO THE AREA? START HERE.

Whether you've just purchased your first home or have lived here for years, sooner or later you'll need someone to repair, maintain or improve it.

But finding the right person isn't always easy. That's why the Homeowners Handbook brings local home-service professionals together in one convenient place — organized by the services homeowners actually need.

RECOMMENDED BY THE PEOPLE WHO KNOW LOCAL HOMES

Local Realtors work with hundreds of homeowners every year. They hear who's doing good work, who homeowners call again, and which local companies they feel comfortable recommending to their clients.

We asked area Realtors to help us identify the contractors and home-service businesses they would recommend to a new homeowner. Their recommendations helped us build the directory you'll find in this Handbook.

1

FIND THE SERVICE

Browse 25 home-service categories.

2

FIND LOCAL PROFESSIONALS

Discover trusted businesses serving our community.

3

KEEP THIS BOOK

A Message from The Publisher

Owning a home means there's always something to maintain, repair, improve — or someday replace.

The Homeowners Handbook was created to make finding the right local professional easier. Inside you'll find contractors and home-service businesses organized by category, so when you need a plumber, electrician, roofer, landscaper — or one of dozens of other services — you'll know where to start.

We also asked local Realtors for their input because they work with homeowners every day and understand the importance of reliable, high-quality local businesses.

Keep this Handbook. Put it somewhere you can find it. We hope you'll use it throughout the year — and support the local businesses that make it possible.

Thanks for keeping it local!
