We can also get you tickets for many events at the destination you choose, Ex. sporting events, concerts, the theater, or sightseeing tours I have always traveled and love travel. I lived in Germany for 5 years and during that time I visited all over Europe. I

love learning about different cultures. I am a history buff so visiting all those historical places in the different European countries was very exciting to me. I am also an artist, so seeing all of the different art Museums like the Louvre, The Rijksmuseum in the Netherlands, the Van Gogh and others was absolutely heaven to me. When this opportunity to become a Travel Agent came to me I took it right away! I can do this! I have some Travel experience, I have some logistics experience and I love to

help people. So even though I have not been in business long, I have experience.

I have been interested in Travel all of my life. I travelled with my parents as a baby for the first 4 years of my life. I have been to 11 foreign countries and about 2/3rd of the United States. Most of that travel has been since i have been an adult. I take photographs of places I go and mostly of nature. I am a history buff. I also worked in Germany at a base in Kitzingen. I was a non-appropriated fund employee in the recreation department. Part of my duties included selling tours for International tours and travel. Collette tours had me work as a hostess on one of the tours to the Netherlands. So I have some experience in travel sales and all it entails.

In the time I have been a travel agent since May of 2022, I have successfully created some wonderful trips for some awesome clients from the Fayetteville, Springdale and Elkins area. I hope that I can service your travel needs to anywhere in the world.
