

Preschool 2.5-4 YO

Our preschool program provides age appropriate activities that draw from curriculum areas or art, math, science, cooking, music and movement, dramatic play, language arts and manipulative activities. There is a focus on teaching children respect and responsibilities for others, themselves, classroom and shared space as well as the value of empathy, sharing and giving. A balanced approach to nurturing active minds, healthy bodies and learning to be independent is implemented.

Curriculum:

- Introduction to letter recognition, phonics, social skills and language development through the *Heggerty* Curriculum.
- Development of self-help skills and encourage development of positive self-esteem
- Discovery of our world through developmentally appropriate activities in the areas of social studies and sciences.
- Counting/numbers/shapes/colors
- Bibles stories, songs and crafts,
- Creative curriculum and assessments through Teaching Strategy
